## LEAK INSURANCE

Wellston is now offering leak insurance to residents that have our services. The following information explains the City's Water insurance.

The terms of the voluntary Water Leak Insurance Program are as follows:

Coverage cost is \$3.00 per a month per customer account.

- The leak insurance will cover up to and including \$1,000.00 per calendar year, per meter and per customer any amount over the average monthly bill. After this amount is reached, the customer will be responsible for the balance of the bill.
- Insurance is valid only if the water department is notified when the leak is identified and again after the leak is repaired and proof of such repairs are presented (**valid receipt**).
- To figure the amount to be paid if a water leak occurs, the customer's bill will be averaged for the twelve months preceding. The average will be deducted from the leak amount. The remaining balance of water and sewer will be considered a leak and the leak amount will be paid for through the Water Leak Insurance Program once the repairs are finished and inspected. If the sewer is not used as a result of the water leak, then the sewer bill will not be charged. The amount available for payment each calendar year is \$1,000.00 per customer account.
- ***The monthly fee of \$3.00 will be added to each monthly bill if the customer takes the insurance. Once you have applied for the service there will be a twenty-day waiting period for the insurance to be in effect.***
- The Water Leak Insurance Program is for the payment of the water and sewer bill only. The insurance cannot be used to fill swimming pools or any other uses not considered leaks. ***The Water Insurance Program does not pay for the customer's repair.***
