Accountant's Compilation Report

Management is responsible for the accompanying basic financial statements of the City of Wellston as of and for the year ended December 31, 2025, in accordance with accounting principles generally accepted in the United States of America. We have performed compilation engagements in accordance with Statements on Standards for Accounting and Review Services promulgated by the Accounting and Review Services Committee of the AICPA. We did not audit or review the accompanying financial statements nor were we required to perform any procedures to verify the accuracy or completeness of the information provided by management. Accordingly, we do not express an opinion, a conclusion, nor provide any form of assurance on these financial statements.

Management's Discussion and Analysis is supplementary information required by the Governmental Accounting Standards Board and was prepared by management. We did not compile, review, or audit the information nor do we express an opinion, a conclusion, nor provide any assurance on the information.

The Schedules of the City's Proportionate Share of Net Pension Liability, the Schedules of the City's Proportionate Share of Net OPEB Asset/Liability, and the Schedules of City Contributions are not part of the basic financial statements but the Governmental Accounting Standards Board requires their presentation to supplement the basic financial statement. We have compiled these schedules without audit or review and, accordingly, we do not express an opinion, a conclusion, nor provide any assurance on this information.

City of Wellston, Ohio
Management's Discussion and Analysis
For the Year Ended December 31, 2025
Unaudited

The discussion and analysis of the City of Wellston's financial performance provides an overall review of the City's financial activities for the year ended December 31, 2025. The intent of this discussion and analysis is to look at the City's financial performance as a whole; readers should also review the basic financial statements and the notes to the basic financial statements to enhance their understanding of the City's financial performance.

Financial Highlights

Key financial highlights for 2025 are as follows:

- The City's total net position increased by \$55,956. Net position of governmental activities decreased \$412,599 from the prior year. Net position of business-type activities increased \$468,555 from the prior year.
- The Water Treatment Plant project is estimated to cost \$7,783,717 and began in 2020. In 2025 \$2,863,243 of this project has been completed.
- The New York – Broadway Sanitary Sewer System Improvements Project started in 2024 to update the sewer system on New York and Broadway Streets. The total estimated cost of this project is \$4,603,916, as of December 31, 2025, \$4,384,698 of this project has been completed.

Using this Annual Financial Report

This annual report consists of a series of financial statements and notes to those statements. These statements are organized so the reader can understand the City of Wellston as a financial whole or as an entire operating entity. The statements then proceed to provide an increasingly detailed look at specific financial activities and conditions.

The Statement of Net Position and Statement of Activities provide information about the activities of the whole City, presenting both an aggregate view of the City's finances and a longer-term view of those assets. Fund financial statements provide the next level of detail. For governmental funds, these statements tell how services were financed in the short-term as well as what dollars remain for future spending. The fund financial statements also look at the City's most significant funds with all other non-major funds presented in total in one column.

Reporting the City of Wellston as a Whole

Statement of Net Position and Statement of Activities

While this document contains information about the funds used by the City to provide services to our citizens, the view of the City as a whole looks at all financial transactions and asks the question, "How did we do financially during fiscal year 2025?" The Statement of Net Position and the Statement of Activities answer this question. These statements include all assets, liabilities, and deferred outflows/inflows of resources using the accrual basis of accounting similar to the accounting used by most private sector companies. This basis of accounting considers all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the City's net position and changes in net position. This change in net position is important because it tells the reader whether, for the City as a whole, the financial position of the City has improved or diminished. However, in evaluating the overall position of the City, nonfinancial information such as the condition of City capital assets will also need to be evaluated.

City of Wellston, Ohio
Management's Discussion and Analysis
For the Year Ended December 31, 2025
Unaudited

In the Statement of Net Position and the Statement of Activities, the City is divided into two kinds of activities:

Governmental Activities – Most of the City's services are reported here including police, administration, and all departments except for our Water, Sewer, and Garbage Funds.

Business-Type Activities – Water and sewer services have charges based upon the amount of usage. The City historically has not charged sufficient fees to recoup the cost of the entire operations of our Water and Sewer Treatment Plants as well as all capital expenses associated with the facilities. In recent years, these rates have been increasing regularly to recoup all costs involved. In 2025 the Water and Sewer funds had a positive change in fund balance. Garbage collection services have charges based upon set rates. The City attempts to set fees that cover the costs of providing the service.

Reporting the City of Wellston's Most Significant Funds

Fund Financial Statements

The fund financial statements provide more detailed information about the City's most significant funds – not the City as a whole. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds. Fund financial reports provide detailed information about the City's major funds. Based on the restriction on the use of monies, the City has established many funds that account for the multitude of services provided to its residents. However, these fund financial statements focus on the City's most significant funds. The City's major governmental funds are the General Fund, as well as the Fire Levy Special Revenue Fund and the Permanent Investment Capital Projects Fund.

Governmental Funds Governmental Funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on current sources and uses of spendable resources, as well as balances of spendable resources available at the end of the year. Such information may be useful in evaluating the City's near-term financing requirements.

Because the focus of governmental funds is narrower than the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, the reader may better understand the long-term impact of the City's near-term financial decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains a number of individual governmental funds. Information for the major funds, identified earlier, is presented separately in the governmental fund balance sheet and in the governmental statement of revenues, expenditures and changes in fund balances. Data from the other governmental funds are combined into a single aggregated presentation.

Enterprise Funds The City uses enterprise funds to account for its water, sewer, and garbage operations. For water and sewer operations, the City charges a fee to customers, based upon the amount of usage, in an attempt to recover the costs of the services provided. For garbage operations, the City charges a flat monthly fee.

City of Wellston, Ohio
Management's Discussion and Analysis
For the Year Ended December 31, 2025
Unaudited

Fiduciary Fund The City accounts for resources held for the benefit of parties outside the government as a fiduciary fund. This fund is not reflected in the government-wide financial statements because the resources of this fund are not available to support the City's own programs. The City uses accrual accounting for fiduciary funds, the same as that of the proprietary funds.

The City of Wellston as a Whole

Recall that the Statement of Net Position looks at the City as a whole. Table 1 provides a summary of the City's net position for 2025 compared to 2024.

Table 1 - Net Position

Table 1 provides a summary of the City's net position for 2025 compared to 2024

The net pension liability (NPL) is the largest single liability reported by the City at December 31, 2025. GASB notes that pension and OPEB obligations, whether funded or unfunded, are part of the "employment exchange" – that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension and other postemployment benefits. GASB noted that the unfunded portion of this promise is a present obligation of the government, part of a bargained-for benefit to the employee and should accordingly be reported by the government as a liability since they received the benefit of the

City of Wellston, Ohio
Management's Discussion and Analysis
For the Year Ended December 31, 2025
Unaudited

exchange. However, the City is not responsible for certain key factors affecting the balance of these liabilities. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The Ohio revised Code permits, but does not require, retirement systems to provide healthcare to eligible benefit recipients. The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits.

In accordance with GASB 68 and GASB 75, the City's statements prepared on an accrual basis of accounting include an annual pension expense and an annual OPEB expense for their proportionate share of each plan's *change* in net pension liability (asset) and net OPEB liability (asset), respectively, not accounted for as deferred inflows/outflows.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability or the net OPEB liability. As explained above, changes in benefits, contribution rates, and return on investments affect the balance of these liabilities but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability and the net OPEB liability are satisfied, these liabilities are separately identified within the long-term liability section of the statement of net position.

Each year, the above referenced changes impact the balance of the net pension/OPEB liabilities (asset) and the related deferred inflows and outflows. During 2025 these changes impacted the balances related to OPERS. The decrease in the overall net pension liability resulted from the OPERS legacy combined plan being consolidated with the traditional pension plan along with increased pension plan investment earnings. The decrease in deferred outflows related to pension and OPEB resulted from the amortization of prior year amounts offset by the difference between expected and actual experience amount recognized in 2025. The decrease in deferred inflows for OPEB resulted from the amortization of prior year amounts offset by deferred inflows for pension for the difference between expected and actual experience and changes in assumption recognized in 2025. Pension expense decreased over the prior year due to the amortization of the related deferred outflows/inflows. OPEB expense also decreased due to the recognition of current period benefit changes to the HRA base allowance.

Each year, the above referenced changes impact the balance of the net pension/OPEB liabilities and the related deferred inflows and outflows. During 2025 these changes impacted the balances related to OP&F. The OP&F net pension liability increased while the net OPEB liability decreased. These changes primarily resulted from increased investment earnings. The increase in deferred outflows related to pension and the decrease in deferred outflows related to OPEB resulted from the current year amortization offset by the 2025 deferred outflow amount for the difference between expected and actual experience for pension. The decrease in deferred inflows for pension and the increase in deferred inflows for OPEB resulted from the amortization of prior year amounts offset by the difference between expected and actual experience for OPEB and the change in assumption for OPEB that was recognized in 2025. Pension and OPEB expenses increased over the prior year due to the amortization of related deferred outflows/inflows.

For governmental activities, total assets decreased mainly due to the decrease in intergovernmental receivables and loan receivables. Property taxes receivable increased during 2025 due to an increase in the amounts certified to be collected by the County Auditor. There was an increase in materials and supplies inventory in 2025, along with an increase to prepaid items.

City of Wellston, Ohio
Management's Discussion and Analysis
For the Year Ended December 31, 2025
Unaudited

Liabilities decreased mainly due to a decrease in net OPEB liability. These decreases were offset by an increase in net pension liability and accrued vacation leave payable.

For business-type activities, total assets increased due to the increase in net OPEB asset and capital assets. Capital assets increased due to the progression of the projects in the water and sewer department.

Total liabilities in the business-type activities increased mainly due to the increase to contracts payable and retainage payable. The increase in contracts payable and retainage payable is due to the water improvement project and the New York and Broadway sanitary sewer project progression.

In order to further understand what makes up the changes in net position for the current year, the following table gives readers further details regarding the results of activities for 2025 and 2024.

Table 2 - Changes in Net Position

Management's Discussion and Analysis
For the Year Ended December 31, 2025
Unaudited

Table 2 provides a summary of the City's change in net position for 2025 compared to 2024. The above table separately reflects the 2024 restatement for changes in accounting principles related to the implementation of GASB Statement No. 101, *Compensated Absences*.

Governmental Activities

Operating grants, contributions and interest and capital grants and contributions accounted for 22.2 percent of total governmental revenues. Operating grants and contributions and interest increased while capital grants and contributions decreased. Property taxes revenue provided 17.1 percent of total governmental revenues with a decrease in 2025, and 33.3 percent was generated from income taxes with an increase in 2025. Income taxes, property taxes, and unrestricted grants and entitlements combined, provided 56.3 percent of the City's total governmental revenues.

Charges for services and capital grants decreased due to the decrease in grant funding specifically for capital assets. This decrease is due to the City receiving all of the grant funding for the Blamer Field project in 2024. Revenues for operating grants and contributions increased, while investment earnings decreased.

The City's security of persons and property-police program accounted for the majority of the City's governmental expenses. This was an increase from 2024 due to the spending of the police department and fire department being increased.

Business-Type Activities

The City's business-type activities are for water, sewer, and garbage services. During 2025, program revenues exceeded expenses.

In 2025 revenues increased across all business-type activities due to rate increases and the grants received in 2025. The expenses for the water and sewer funds decreased in 2025 and increased in the garbage fund. This decrease is due to the City spending cautiously in these funds, this was offset by an increase in the garbage fund due to the increase in wages and supplies.

The minimum water rate is \$16.25 for the first one thousand gallons of water. Sewer fees are calculated on the amount of water used. The minimum sewer rate is \$26.25 per month. Garbage fees are assessed at a rate of \$16 per month for a one-yard container and varies for larger capacity containers.

The City's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds – The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance serves as a useful measure of the City's net resources available for spending at the end of the year.

General Fund

The General Fund is the primary operating fund of the City. At the end of 2025, fund balance was \$1,037,907. This is a slight decrease from 2024. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 34.3 percent of total General Fund expenditures, while total fund balance represents 39.7 percent of that same amount.

City of Wellston, Ohio
Management's Discussion and Analysis
For the Year Ended December 31, 2025
Unaudited

Other Major Governmental Funds

The fund balances of the Fire Levy Special Revenue Fund decreased \$61,727 in 2025. This decrease is due to the increase in fire expenditures along with the decrease in charges for services due to the decline of training applicants. Revenues increased slightly in property taxes and intergovernmental revenues.

Enterprise Funds

The City's enterprise funds provide the same type of information found in the government-wide financial statements, but in more detail.

The City's enterprise funds are the water, sewer, and garbage Funds. The net position of all enterprise funds increased from 2024 except for the garbage fund. Construction in progress is expected to be completed soon causing an increase in contracts payable and retainage payable. OWDA loan balances have increased to continue the funding for these projects. Overall, in the enterprise funds, the total revenues have increased since last year while expenses decreased causing the increase in the net position.

General Fund Budgetary Highlights

The City's budget is prepared according to Ohio law and is based on accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The most significant budgeted fund is the General Fund. From time to time during the year, the fund's budget may be amended as needs or conditions change.

During the course of 2025, the City did not amend its revenue budget.

Actual revenues were over final estimates. The original appropriations were increased in 2025. Even with revenues exceeding final estimates, actual spending was greater than revenues causing the City to deficit spend and decrease its General Fund balance.

Capital Assets and Debt Administration

Capital Assets

Total capital assets for the governmental activities, net of accumulated depreciation/amortization, increased from the prior year as a result of current year capitalizations exceeding depreciation/amortization. These additions of assets include multiple new passenger vehicles, Harvey Wells House Renovation project, and a Freightliner bucket truck.

Total capital assets for the business-type assets, net of accumulated depreciation/amortization, increased from the prior year as a result of additions outpacing current year annual depreciation/amortization. These additions include lab building roof, vehicles, garbage truck, and pump replacements.

Detailed information regarding capital asset activities is included in the notes to the financial statements. (See Note 10)

Long-term Obligations

As of December 31, 2025, long-term liabilities include OPWC loans, OWDA loans, other loans, leases, net pension/OPEB liabilities, compensated absences, and an asset retirement obligation.

The City has loans for fire department renovations, fire trucks, a pumper truck, and air packs paid from the County Sales Tax and Fire Levy Special Revenue Funds. Noncurrent liabilities paid by the enterprise funds

City of Wellston, Ohio
Management's Discussion and Analysis
For the Year Ended December 31, 2025
Unaudited

include other loans, OPWC loans, OWDA loans, net pension/OPEB liabilities, compensated absences, and an asset retirement obligation.

Detailed information regarding long-term liabilities is included in the notes to the financial statements. (See Note 15)

Current Issues

The City continues to follow the policies that brought fiscal solvency and continues to look for new ways to improve efficiencies and services to the citizens of Wellston.

Requests for Information

This financial report is designed to provide the City's citizens, taxpayers, customers, investors, and creditors with a general overview of the City's finances and to demonstrate the City's accountability for the money it receives. If you have any questions about this report, please contact the City of Wellston Auditor's Office by calling (740)-384-2428 or by writing the City Auditor at 203 East Broadway, Wellston, Ohio 45692.

City of Wellston, Ohio
*Reconciliation of Total Governmental Fund Balances
to Net Position of Governmental Activities
December 31, 2025*

Total Governmental Fund Balances \$4,819,938

***Amounts reported for governmental activities
in the statement of net position are different
because:***

Capital assets used in governmental activities are not financial resources
and therefore, are not reported in the funds. 7,732,716

Other long-term assets are not available to pay for current-period
expenditures and therefore are not reported in the funds:

Delinquent Property Taxes	234,117	
Income Taxes	230,047	
Charges for Services	186,903	
Fines, Forfeitures and Settlements	60,254	
Intergovernmental Revenues	198,923	910,244

Leave benefits payable is recognized for earned benefits that are
not expected to be paid with expendable available financial
resources and therefore are not reported in the funds. (41,927)

The net pension liability and net OPEB asset/liability are not due and payable
in the current period: therefore, the asset, liabilities, and related deferred
inflows/outflows are not reported in governmental funds:

Net OPEB Asset	71,434	
Deferred Outflows - Pension	838,420	
Deferred Outflows - OPEB	85,395	
Net Pension Liability	(3,161,719)	
Deferred Inflows - Pension	(116,444)	
Deferred Inflows - OPEB	(161,470)	
Net OPEB Liability	(155,153)	(2,599,537)

Long-term liabilities and accrued interest that are not due and payable in
the current period and therefore are not reported in the funds:

Long-Term Loans Payable	(862,390)	
Accrued Interest Payable	(11,881)	
Compensated Absences Payable	(303,096)	(1,177,367)

Net Position of Governmental Activities \$9,644,067

See accompanying notes to the basic financial statements
See accountant's compilation report

City of Wellston, Ohio
*Reconciliation of the Statement of Revenues, Expenditures and Changes
in Fund Balances of Governmental Funds to the Statement of Activities
For the Year Ended December 31, 2025*

Net Change in Fund Balances - Total Governmental Funds (\$223,407)

*Amounts reported for governmental activities in the
statement of activities are different because:*

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their useful lives as depreciation/amortization expense. This is the amount by which capital asset additions exceeded depreciation/amortization in the current period:

Capital Asset Additions	496,303	
Depreciation/Amortization	<u>(475,639)</u>	20,664

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds:

Delinquent Property Taxes	(11,574)	
Income Taxes	(7,716)	
Charges for Services	11,664	
Fines, Forfeitures and Settlements	(4,665)	
Intergovernmental Revenues	<u>(120,299)</u>	(132,590)

Repayment of principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position:

Leases Payable	612	
Loans Payable	<u>100,116</u>	100,728

In the statement of activities, interest is accrued on outstanding debt, whereas in governmental funds, interest is expended when due.

1,606

Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds:

Compensated Absences	(38,673)	
Leave Benefits Payable	<u>(8,836)</u>	(47,509)

Contractually required contributions are reported as expenditures in governmental funds however, the Statement of Net Position reports these amounts as deferred outflows:

Pension	257,852	
OPEB	<u>4,952</u>	262,804

Except for amounts reports as deferred inflows/outflows, changes in the net pension liability and net OPEB asset/liability are reported as pension and OPEB expense in the Statement of Activities:

Pension	(412,212)	
OPEB	<u>17,317</u>	<u>(394,895)</u>

Change in Net Position of Governmental Activities

(\$412,599)

City of Wellston, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2025

NOTE 1 - REPORTING ENTITY

The City of Wellston (the City) is a body politic, incorporated and established for the purpose of exercising the rights and privileges conveyed to it by the laws of the State of Ohio. The City was founded in 1873.

The Mayor, Auditor, Law Director, and Treasurer are each elected to four-year terms. A seven-member Council, plus a Council President are elected to two-year terms. Department directors and public members of various boards and commissions are appointed by the Mayor or Council.

Reporting Entity

The financial reporting entity is composed of the primary government, component units, and other organizations that are included to ensure the financial statements of the City are not misleading. The primary government consists of all funds and departments that are not legally separate from the City. Services provided by the primary government include police and fire protection, street maintenance and repairs, community development, parks and recreation, water, sewer, and garbage services. Staff provides support (i.e., payroll processing, accounts payable, revenue collection) to the service providers. The operation and control of these activities is provided by the City Council through the budgetary process and by the City Auditor and the City Mayor through administrative and managerial requirements and procedures.

Component units are legally separate organizations for which the City is financially accountable. The City is financially accountable for an organization if the City appoints a voting majority of the organization's governing board and (1) the City is able to significantly influence the programs or services performed or provided by the organization; or (2) the City is legally entitled to or can otherwise access the organization's resources; the City is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the City is obligated for the debt of the organization. Component units also include organizations that are fiscally dependent on the City in that the City approves the budget, the issuance of debt, or the levying of taxes, and there is potential for the organization to provide specific financial benefits to, or impose specific financial burdens on, the primary government. No potential component units met these criteria.

The City is involved with the Regional Income Tax Agency (RITA), which is defined as a jointly governed organization and is presented in Note 20.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the City of Wellston have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the City's accounting policies are described below.

A. Basis of Presentation

The City's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities and fund financial statements which provide a more detailed level of financial information.

City of Wellston, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2025

Government-wide Financial Statements

The statement of net position and the statement of activities display information about the City as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statements distinguish between those activities of the City that are governmental and those that are considered business-type activities.

The statement of net position presents the financial condition of the governmental and business-type activities of the City. Direct expenses are those that are specifically associated with a service, program, or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program; grants and contributions that are restricted to meeting the operational or capital requirements of a particular program; and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the City, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business segment or governmental function is self-financing or draws from the general revenues of the City.

Fund Financial Statements

During the year, the City segregates transactions related to certain City functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the City at this more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column. Custodial funds are reported by type.

B. Fund Accounting

The City uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. There are three categories of funds: governmental, proprietary, and fiduciary.

Governmental Funds

Governmental funds are those through which most governmental functions of the City are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities and deferred inflows is reported as fund balance. The following are the City's major governmental funds:

General Fund - The General Fund accounts for and reports all financial resources not accounted for in another fund. The General Fund balance is available to the City for any purpose provided it is expended or transferred according to the general laws of Ohio.

Fire Levy Fund - The Fire Levy Special Revenue Fund is used to account for property tax revenues and billings restricted for the operation of the Wellston Fire Department.

Permanent Investment Fund - The Permanent Investment Capital Projects Fund is used to account for proceeds from the sale of the City's electric plant. Per local ordinance, these proceeds may only be used for capital expenditures.

City of Wellston, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2025

The other governmental funds of the City account for grants and other resources whose use is restricted to a particular purpose.

Proprietary Funds

Proprietary fund reporting focuses on the determination of operating income, changes in net position, financial position, and cash flows. Proprietary funds are classified as either enterprise or internal service. The City's proprietary funds are all classified as enterprise funds. Enterprise funds may be used to account for any activity for which a fee is charged to external users for goods or services. The City's Water and Sewer Enterprise Funds are major funds while the Garbage Enterprise Fund is nonmajor.

Water Fund - The Water Fund is used to account for the revenues generated from the charges for distribution of water to the residential and commercial users within the City.

Sewer Fund - The Sewer Fund is used to account for the revenues generated from the charges for sanitary sewer services provided to the residential and commercial users within the City.

Nonmajor Garbage Fund - The Nonmajor Garbage Fund is used to account for the revenues generated from the charges for garbage removal services provided to the residential and commercial users within the City.

Fiduciary Funds

Fiduciary fund reporting focuses on net position and changes in net position. There are four categories of fiduciary funds; pension trust funds, investment trust funds, private-purpose trust funds, and custodial funds. Trust funds are used to account for assets held by the City under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the City's own programs. The City's only fiduciary funds are custodial funds. The City's custodial funds account for monies held for police and fire auxiliary organizations.

C. Measurement Focus

Government-wide Financial Statements - The government-wide financial statements are prepared using the economic resources measurement focus. All assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of the City are included on the statement of net position. The statement of activities accounts for increases (i.e. revenues) and decreases (i.e. expenses) in total net position.

Fund Financial Statements - All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and deferred outflows of resources and current liabilities and deferred inflows generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Therefore, governmental fund financial statements include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

City of Wellston, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2025

Like the government-wide statements, all proprietary and fiduciary funds are accounted for on a flow of economic resources measurement focus. All assets and deferred outflows of resources and all liabilities and deferred inflows of resources associated with the operation of these funds are included on the statement of fund net position. In fiduciary funds, a liability to the beneficiaries of fiduciary activity is recognized when an event has occurred that compels the government to disburse fiduciary resources. Fiduciary fund liabilities other than those to beneficiaries are recognized using the economic resources measurement focus.

For proprietary funds, the statement of changes in fund net position presents increases (i.e., revenues) and decreases (i.e., expenses) in net total position. The statement of cash flows provides information about how the City finances and meets the cash flow needs of its proprietary activities.

Fiduciary funds present a statement of changes in fiduciary net position which reports additions to and deductions from custodial funds.

D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements and the statements presented for proprietary and fiduciary funds are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, in the recording of deferred outflows/inflows of resources, and in the presentation of expenses versus expenditures.

Revenues – Exchange and Non-exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on an accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the year in which the resources are measurable and become available. Available means that the resources will be collected within the current year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current year. For the City, available means expected to be received within sixty days of year end.

Non-exchange transactions, in which the City received value without directly giving equal value in return, include income taxes, property taxes, grants, entitlements, and donations. On an accrual basis, revenue from income taxes is recognized in the period in which the taxable income is earned. Revenue from property taxes is recognized in the period in which taxes are levied. Revenue from grants, entitlements, and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted; matching requirements, in which the City must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the City on a reimbursable basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue resources are considered to be both measurable and available at year end: investment earnings and other interest, federal and state grant subsidies, state-levied local shared taxes (including motor vehicle license fees and gasoline taxes), income taxes, permissive motor vehicle license tax, fees, and rent.

City of Wellston, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2025

Deferred Outflows/Inflows of Resources

In addition to assets, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources, represents a consumption of net assets that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the City, deferred outflows of resources are reported on the government-wide statement of net position for asset retirement obligations, pension, and OPEB. The deferred outflows of resources related to asset retirement obligations is originally measured at the amount of the corresponding liability. This amount is expensed in a systematic and rational manner over the tangible asset's useful life. The deferred outflows of resources related to pension and OPEB are explained in Notes 11 and 12.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net assets that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the City, deferred inflows of resources include property taxes, pension, OPEB, leases, and unavailable revenue. Property taxes represent amounts for which there is an enforceable legal claim as of December 31, 2025, but which were levied to finance 2026 operations. The deferred inflow for leases is related to leases receivable and is being recognized as lease revenue in a systematic and rational manner over the term of the lease. These amounts have been recorded as a deferred inflow on both the government-wide statement of net position and the governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet and represents receivables which will not be collected within the available period. For the City, unavailable revenue includes delinquent property taxes; income taxes; charges for services; fines, forfeitures and settlements; and intergovernmental revenues. These amounts are deferred and recognized as an inflow of resources in the period the amounts become available. The details of these unavailable revenues are identified on the Reconciliation of Total Governmental Fund Balances to Net Position of Governmental Activities found on page 16. Deferred inflows of resources related to pension and OPEB plans are reported on the government-wide statement of net position. (See Notes 11 and 12)

Expenses/Expenditures

On the accrual basis of accounting, expenses are recognized at the time they are incurred.

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

E. Budgetary Process

All funds, other than custodial funds, are legally required to be budgeted and appropriated. The major documents prepared are the tax budget, the certificate of estimated resources, and the appropriations resolutions, all of which are prepared on the budgetary basis of accounting. The tax budget demonstrates a need for existing or increased tax rates. The certificate of estimated resources establishes a limit on the amount the City Council may appropriate. The appropriations resolution is the City Council's authorization to spend resources and sets annual limits on the expenditures plus encumbrances at the level of control selected by the City Council. The legal level of budgetary control is at the object level within each fund and department. Any budgetary modifications at this level may only be made by resolution of the City Council. Advances between funds are not required to be budgeted.

City of Wellston, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2025

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the City Auditor. The amounts reported as the original budgeted amounts on the budgetary statements reflect the amounts on the certificate of estimated resources when the original appropriations were adopted. The amounts reported as the final budgeted amounts on the budgetary statements reflect the amounts on the amended certificate of estimated resources in effect at the time final appropriations were adopted by City Council.

The appropriation resolution is subject to amendment throughout the year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts in the budgetary statements reflect the first appropriation resolution for the fund that covered the entire year, including amounts automatically carried forward from prior years. The amounts reported as the final budgeted amounts represent the final appropriation amounts passed by City Council during the year, including amounts automatically carried forward from prior years.

F. Cash and Cash Equivalents

To improve cash management, cash received by the City is pooled. Monies for all funds, except for the Permanent Investment Capital Projects Fund and a portion of the Cemetery Perpetual Care Permanent Fund, are maintained in this pool. Interest in the pool is presented as “equity in pooled cash and cash equivalents.”

During 2025, investments were limited to certificates of deposit, which are reported at cost.

Investment procedures are restricted by the provisions of the Ohio Revised Code. Investment earnings and other interest revenue credited to the General Fund during 2025 amounted to \$166,516, which includes \$150,109 assigned from other City funds.

Investments with an original maturity of three months or less at the time of purchase and investments of the cash management pool are presented on the financial statements as cash equivalents.

G. Receivables and Payables

Receivables and payables are recorded on the City’s financial statements to the extent that the amounts are determined to be material and are substantiated not only by supporting documentation, but also, by a reasonable, systematic method of determining their existence, completeness, valuation and, in the case of receivables, collectability.

H. Restricted Assets

Assets are reported as restricted when limitations on their use change the nature or normal understanding of the availability of the asset. Such constraints are either externally imposed by creditors, contributors, grantors, or laws of other governments, or are imposed by law through constitutional provisions or enabling legislation. Restricted assets in the General Fund include amounts restricted for unclaimed monies legally required to be maintained until the end of a five-year holding period. Restricted assets in the enterprise funds represents amounts restricted for customer deposits and amounts held in trust by the pension and amounts restricted for OPEB plans for future benefits.

I. Inventory

Inventories are presented at cost on a first-in, first-out basis and are expensed/expended when used. Inventory consists of materials and supplies held for consumption.

City of Wellston, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2025

J. Prepaid Items

Payments made to vendors for services that will benefit periods beyond December 31, 2025, are recorded as prepaid items using the consumption method by recording a current asset for the prepaid amount and reflecting the expenditure/expense in the year in which services are consumed.

K. Capital Assets

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities' columns of the government-wide statement of net position but are not reported in the fund financial statements. Capital assets utilized by the enterprise funds are reported both in the business-type activities column of the government-wide statement of net position and in the funds.

All capital assets (except for intangible right-to-use lease assets which are discussed below) are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Governmental activities' infrastructure amounts represent capital asset purchases made since January 1, 2004. The City has elected not to retroactively report governmental activities' infrastructure. Donated capital assets are recorded at their acquisition values as of the date received. The City maintains a capitalization threshold of ten thousand dollars. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized.

The County is reporting intangible right-to-use assets related to lease assets. The lease assets include equipment and represent nonfinancial assets which are being utilized for a period of time through leases from another entity. These intangible right-to-use assets are being amortized in a systematic and rational manner over the shorter of the lease term or the useful life of the underlying asset.

All capital assets are depreciated except for land and construction in progress. Improvements are depreciated over the remaining useful lives of the related capital assets. Useful lives for infrastructure were based on the City's historical records of necessary improvements and replacement. Depreciation is computed using the straight-line method over the following useful lives:

Description	Governmental Activities Estimated Lives	Business-Type Activities Estimated Lives
Tangible Assets		
Land Improvements	20 years	10 years
Buildings and Improvements	20-40 years	20-40 years
Furniture and Equipment	15 years	15 years
Vehicles	5-25 years	5-25 years
Infrastructure	15 years	70 years
Intangible Right-to-Use Assets		
Equipment	3 years	5 years

Infrastructure recorded for governmental activities included primarily roads and bridges, and also includes infrastructure acquired prior to December 31, 1980. Infrastructure for business-type activities includes sewer and water lines.

City of Wellston, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2025

L. Compensated Absences

For the City, compensated absences includes leave for which employees may receive cash payments when the leave is used for time off or receive cash payments for unused leave upon termination of employment. These payments could occur during employment or upon termination of employment. Compensated absences generally do not have a set payment schedule. The City does not offer noncash settlements. The City uses a first-in first-out flow assumption for compensated absences.

Liabilities should be recognized for leave that has not been used if the leave is attributable to services already rendered, the leave accumulates and is allowed to be carried over to subsequent years, and the leave is more likely than not to be used for time off or otherwise paid in cash. For the City, this leave includes sick and vacation time. However, the City also has certain compensated absences that are dependent upon the occurrence of a sporadic events that affects a relatively small proportion of employees. A liability for these types of leave is recognized when the leave commences. For the City this type of leave includes bereavement leave, military leave, personal leave, on-the-job injury leave, and court leave. Holiday leave taken on a specific date, not at the discretion of the employee is recognized as a liability when used. The liability for compensated absences includes salary-related payments, where applicable.

The City records a liability for all accumulated unused vacation time when earned for all employees with more than one year of service. Since the City's policy limits the accrual of vacation time to the amount accrued in one year, the outstanding liability is recorded as "accrued vacation leave payable" on the statement of net position rather than as a long-term liability.

Liabilities for compensated absences are recognized in financial statements prepared using the economic resources measurement focus for leave that has not been used and leave that has been used but not yet paid or settled.

On governmental fund financial statements, compensated absences are recognized as a liability and expenditure to the extent payments come due each period upon the occurrence of employee resignations and retirements.

M. Accrued Liabilities and Long-Term Obligations

The City reports all payables, accrued liabilities, and long-term liabilities in the government-wide financial statements and it reports all payables, accrued liabilities, and noncurrent liabilities payable from proprietary funds in the proprietary fund financial statements.

In general, the City reports governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, as obligations of the funds. However, claims and judgments and compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that these liabilities come due for payment during the current year. Net pension/OPEB liability should be recognized in the governmental funds to the extent that benefit payments are due and payable and the pension/OPEB plan's fiduciary net position is not sufficient for payment of those benefits. Long-term loans and leases are recognized as a liability in the governmental fund financial statements when due.

N. Fund Balance

Fund balance is divided into five classifications based primarily on the extent to which the City is bound to observe constraints imposed upon the use of the resources in the governmental funds. The classifications are as follows:

City of Wellston, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2025

Nonspendable The nonspendable fund balance category includes amounts that cannot be spent because they are not in spendable form, or are legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash. It also includes the long-term amount of interfund loans, prepaids, as well as inventory, unless the use of the collection of the loans, or from the use of the prepaids and inventory, is restricted, committed, or assigned. Nonspendable fund balance in the general fund includes unclaimed monies legally required to be maintained until the end of a five-year holding period offset by any estimated liability for payments to claimants.

Restricted Fund balance is reported as restricted when constraints placed on the use of resources are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or is imposed by law through constitutional provisions or enabling legislation (City Ordinances).

Enabling legislation authorizes the City to assess, levy, charge, or otherwise mandates payment of resources (from external resource providers) and includes a legally enforceable requirement that those resources be used only for the specific purposes stipulated in the legislation. Legal enforceability means that the City can be compelled by an external party-such as citizens, public interest groups, or the judiciary to use resources created by enabling legislation only for the purposes specified by the legislation.

Committed The committed fund balance classification includes amounts that can be used only for the specific purposes imposed by formal action (ordinance or resolution) of City Council. Those committed amounts cannot be used for any other purpose unless City Council removes or changes the specified use by taking the same type of action (ordinance or resolution) it employed to previously commit those amounts. In contrast to fund balance that is restricted by enabling legislation, the committed fund balance classification may be redeployed for other purposes with appropriate due process. Constraints imposed on the use of committed amounts are imposed by City Council, separate from the authorization to raise the underlying revenue; therefore, compliance with these constraints is not considered to be legally enforceable. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements.

Assigned Amounts in the assigned fund balance classification are intended to be used by the City for specific purposes but do not meet the criteria to be classified as restricted or committed. In governmental funds other than the General Fund, assigned fund balance represents the remaining amount that is not restricted or committed. In the General Fund, assigned amounts represent intended uses established by City Council or a City official delegated that authority by City Charter or ordinance, or by State Statute. State Statute authorizes the City to assign fund balance for purchases on order provided such amounts have been lawfully appropriated. The City Council assigned fund balance to cover the gap between the estimated resources and appropriations in the 2026’s appropriated budget.

Unassigned Unassigned fund balance is the residual classification for the general fund and includes amounts not contained in the other classifications. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed, or assigned.

City of Wellston, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2025

The City applies restricted resources first when expenditures are incurred for purposes for which either restricted or unrestricted (committed, assigned, and unassigned) amounts are available. Similarly, within unrestricted fund balance, committed amounts are reduced first, followed by assigned, and then unassigned amounts when expenditures are incurred for purposes for which amounts in any of the unrestricted fund balance classifications could be used.

O. Net Position

Net position represents the difference between all other elements in a statement of financial position. Net investment in capital assets consists of capital assets, net of accumulated depreciation/amortization, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Net position is reported as restricted when there are limitations imposed on its use either through the constitutional provisions or through enabling legislation or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. Restricted net position for unclaimed monies represents amounts required to be maintained until the end of a five-year holding period offset by any estimated liability for payments to claimants. Restricted net position for OPEB plans represent the corresponding restricted asset amounts held in trust by the OPEB plans for future benefits.

The City applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted resources are available.

P. Internal Activity

Transfers between governmental and business-type activities on the government-wide statements are reported in the same manner as general revenues. Transfers within governmental activities are eliminated. Internal allocations of overhead expenses from one program to another or within the same program are eliminated on the Statement of Activities. Payments for interfund services provided and used are not eliminated.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser fund. Flows of cash or goods from one fund to another without a requirement for repayment should be reported as internal transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the fund financial statements.

Q. Pensions/Other Postemployment Benefits (OPEB)

For purposes of measuring the net pension/OPEB asset/liability, deferred outflows of resources and deferred inflows of resources related to pensions/OPEB, and pension/OPEB expense, information about the fiduciary net position of the pension/OPEB plans and additions to/deductions from their fiduciary net position have been determined on the same basis as they are reported by the pension/OPEB plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension/OPEB plans report investments at fair value.

R. Unearned Revenue

Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied. The City recognizes unearned revenue for intergovernmental revenue from grants received before the eligibility requirements are met.

City of Wellston, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2025

S. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

T. Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the City, these revenues are charges for services for sewer, water, and garbage utility services. Operating expenses are necessary costs that have been incurred in order to provide the good or service that is the primary activity of the fund. Revenues and expenses not meeting the definition are reported as nonoperating.

U. Extraordinary and Special Items

Extraordinary items are transactions or events that are both unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of the City that are either unusual in nature or infrequent in occurrence.

V. Capital Contributions

Contributions of capital arise from outside contributions of capital assets, grants used for principal forgiveness, or from grants or outside contributions of resources restricted to capital acquisition and construction.

W. Leases

The City serves as both lessee and lessor in various noncancellable leases which are accounted for as follows:

Lessee At the commencement of a lease, the City initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made. The lease asset is initially measured as the initial amount of the lease liability, adjusted for lease payments made at or before the lease commencement date, plus certain initial direct costs.

Subsequently, the lease asset is amortized in a systematic and rational manner over the useful life of the underlying asset. Lease assets are reported with other capital assets and lease liabilities are reported with long-term liabilities on the statement of net position.

Lessor At the commencement of a lease, the City initially measures the lease receivable at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is initially measured as the initial amount of the lease receivable, adjusted for lease payments received at or before the lease commencement date. Subsequently, the deferred inflow of resources is recognized as revenue over the life of the lease term.

NOTE 3 - ACCOUNTING CHANGES

Change in Accounting Principle

For 2025, the City implemented Governmental Accounting Standards Board (GASB) Statement No. 102, *Certain Risk Disclosures*. GASB 102 will provide users of government financial statements with essential information about risks related to a government's vulnerabilities due to certain concentrations or constraints. GASB 102 requirements apply only to note disclosure and do not have any effect on beginning net position/fund balance. The City evaluated their concentrations and constraints but did not have any events that required disclosure.

Changes to or within the Financial Reporting Entity

For 2025, County Sales Tax special revenue fund presentation was adjusted from major to nonmajor due to no longer meeting the quantitative threshold for a major fund. This change is separately displayed in the financial statements.

NOTE 4 - BUDGETARY BASIS OF ACCOUNTING

While reporting financial position, results of operations, and changes in fund balance on the basis of generally accepted accounting principles (GAAP), the budgetary basis, as provided by law, is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The Statements of Revenues, Expenditures and Changes in Fund Balances Budget and Actual (Budget Basis) are presented for the General Fund and the major special revenue fund on the budgetary basis to provide a meaningful comparison of actual results with the budget.

The major differences between the budget basis and the GAAP basis are that:

1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
3. Outstanding year end encumbrances are treated as expenditures (budget basis) rather than as committed or assigned fund balance (GAAP basis).
4. Unrecorded cash is reported on the balance sheet (GAAP) but not on the budgetary basis.
5. Prepaid items are reported on the balance sheet (GAAP basis), but not on the budgetary basis.

The adjustments necessary to convert the results of operations for the year on the GAAP basis to the budget basis are as follows:

City of Wellston, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2025

Net Change in Fund Balances

	General	Fire Levy
GAAP Basis	(\$16,298)	(\$61,727)
Net Adjustment for Revenue Accruals	(59,410)	(2,292)
Net Adjustment for Expenditure Accruals	(6,299)	3,580
Beginning of Year:		
Unreported Cash	1,076	2,450
Prepaid Items	15,910	307
Negative Cash	35,006	0
End of Year:		
Unreported Cash	(378)	(1,500)
Prepaid Items	(64,523)	(14,722)
Negative Cash	(1,375)	0
Encumbrances	(34,844)	(49,204)
Budget Basis	(\$131,135)	(\$123,108)

NOTE 5 - DEPOSITS AND INVESTMENTS

Active deposits are public monies determined to be necessary to meet current demands upon the City treasury. Active monies must be maintained either as cash in the City treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive deposits are public deposits that Council has identified as not required for use within the current five-year period of designation of depositories. Inactive deposits must either be evidenced by certificates of deposit maturing not later than the end of the current period of designation of depositories, or by savings or deposit accounts including, but not limited to, passbook accounts.

Interim deposits are deposits of interim monies. Interim monies are those monies which are not needed for immediate use, but which will be needed before the end of the current period of designation of depositories. Interim deposits must be evidenced by time certificates of deposit maturing not more than one year from the date of deposit or by savings or deposit accounts including passbook accounts.

Protection of the City's deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, or by the financial institutions participation in the Ohio Pooled Collateral System (OPCS), a collateral pool of eligible securities deposited with a qualified trustee and pledged to the Treasurer of State to secure the repayment of all public monies deposited in the financial institution.

Interim monies held by the City can be deposited or invested in the following securities:

1. United States Treasury bills, bonds, notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States;
2. Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including, but not limited to, Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal

City of Wellston, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2025

Home Loan Mortgage Corporation, and Government National Mortgage Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;

3. No-load money market mutual funds consisting exclusively of obligations described in (1) or (2) and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;
4. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts;
5. Bonds and other obligations of the State of Ohio, and, with certain limitations including a requirement for maturity within ten years from the date of settlement, bonds and other obligations of political subdivisions of the State of Ohio, if training requirements have been met;
6. Certain bankers' acceptances (for a period not to exceed one hundred eighty days) and commercial paper notes (for a period not to exceed two hundred seventy days) in an amount not to exceed 40 percent of the interim monies available for investment at any one time if training requirements have been met; and
7. Written repurchase agreements in the securities described in (1) or (2) provided the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least two percent and be marked to market daily, and the term of the agreement must not exceed thirty days.

Investments in stripped principal or interest obligations, reverse repurchase agreements and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. Except as noted above, an investment must mature within five years from the date of purchase unless matched to a specific obligation or debt of the City and must be purchased with the expectation that it will be held to maturity.

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

At year end, the City had \$10,358 in undeposited cash on hand which is included as part of "Equity in Pooled Cash and Cash Equivalents".

NOTE 6 - PROPERTY TAXES

Property taxes include amounts levied against all real and public utility property located in the City. Property tax revenue received during 2025 for real and public utility property taxes represents collections of 2024 taxes.

2025 real property taxes are levied after October 1, 2025, on the assessed value as of January 1, 2025, the lien date. Assessed values are established by State law at 35 percent of appraised market value. 2025 real property taxes are collected in and intended to finance 2026.

Real property taxes are payable annually or semi-annually. If paid annually, payment is due December 31; if paid semi-annually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits later payment dates to be established.

City of Wellston, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2025

Public utility tangible personal property currently is assessed at varying percentages of true value; public utility real property is assessed at 35 percent of true value. 2025 public utility property taxes which became a lien December 31, 2024, are levied after October 1, 2025, and are collected in 2026 with real property taxes.

The full tax rate for all City operations for the year ended December 31, 2025, was \$11.80 per \$1,000 of assessed value. The assessed values of real property and public utility tangible property upon which 2025 property tax receipts were based are as follows:

Real Property	\$79,398,410
Public Utility Real Property	59,360
Public Utility Personal Property	<u>8,150,490</u>
Total	<u>\$87,608,260</u>

The County Treasurer collects property taxes on behalf of all taxing districts in the county, including the City. The County Auditor periodically remits to the City its portion of the taxes collected. Property taxes receivable represents real property and public utility taxes and outstanding delinquencies which are measurable as of December 31, 2025, and for which there is an enforceable legal claim. In governmental funds, the portion of the receivable not levied to finance 2025 operations is offset to deferred inflows of resources - property taxes. On the accrual basis, collectible delinquent property taxes have been recorded as a receivable and revenue while on the modified accrual basis the revenue has been reported as deferred inflows of resources - unavailable revenue.

NOTE 7 - TAX ABATEMENTS

Pursuant to Ohio Revised Code Chapter 5709, the City established two Enterprise Zone Agreement property tax abatements to encourage new investments. Abatements are obtained through application by the property owner, including proof that the improvements have been made, and equal a percent of the additional property tax resulting from the increase in assessed value as a result of the improvement. The amount of the abatement is deducted from the recipient's tax bill.

The City of Wellston has entered into an enterprise zone agreement with General Mills. This agreement is for the construction of warehouse space. The abatement agreement is for 75 percent of the expansion value in exchange for job creation. In the event of default of the agreement terms, the City may require the repayment of the amount of taxes that would have been payable had the property not been exempted from taxation under this agreement.

The City of Wellston entered into an enterprise zone agreement with BCR Holdings Company, LLC to support the renovation of vacant structures in the area. This agreement involves tax incentives for development, aiming to restore buildings and boost local economic growth, in exchange for job creation. In the event of default of the agreement terms, the City may require the repayment of the amount of taxes that would have been payable had the property not been exempted from taxation under this agreement.

Below is the information relevant to the disclosure of those programs for the year ended December 31, 2025.

Tax Abatement Program	Taxes Abated
<i>Enterprise Zone Tax Exemptions</i>	
General Mills Warehouse Space	\$22,230
BCR Holdings	<u>29,930</u>
	<u>\$52,160</u>

City of Wellston, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2025

NOTE 8 - INCOME TAX

The City levies a municipal income tax of one percent on substantially all income earned within the City. In addition, the residents of the City are required to pay income tax on income earned outside of the City; however, the City allows a credit for income taxes paid to another municipality.

Employers within the City are required to withhold income tax on employee compensation and remit the tax to the Regional Income Tax Agency (RITA, the City's third-party administrator) quarterly. Corporations and other individual taxpayers are required to pay their estimated tax quarterly and file a declaration semi-annually.

Income tax proceeds are to be used for the purposes of general municipal operations, maintenance of facilities, new equipment, extension and enlargement of municipal services, and facilities and capital improvements of the City of Wellston. In 2025, all proceeds were receipted into the General Fund. The Regional Income Tax Agency administers and collects income taxes for the City. Payments are remitted monthly net of collection fees of approximately 1.0 percent.

NOTE 9 - RECEIVABLES

Receivables at December 31, 2025, consisted of property and income taxes; Permissive Motor Vehicle License Tax; accrued interest; loans; intergovernmental receivables arising from grants, entitlements, and shared revenues; leases, and accounts (billings for user charged services and Opioid settlement monies). All receivables are considered fully collectible. Delinquent utility accounts receivable (billings for user charged services) are certified and collected as special assessments, subject to foreclosure for nonpayment. The financial statements reflect loans receivable of \$172,743 for principal owed to the City for Community Development Block Grant and Urban Development Action Grant revolving loan monies loaned to businesses for improvement and expansion efforts. All receivables are expected to be collected within one year, with the exception of leases and delinquent property taxes. Property taxes, although ultimately collectible, include some portion of delinquencies that will not be collected within one year in the amount of \$234,117.

A summary of intergovernmental receivables follows:

Governmental Activities:	
Gasoline Tax	\$155,248
Sales Tax	61,677
Local Government Subsidies	58,411
Homestead and Rollback	40,609
Motor Vehicle License Tax	23,436
Miscellaneous	19,614
Business-Type Activities:	
EPA Grant	228
Total Intergovernmental Receivable	<u>\$359,223</u>

Leases Receivable

The City is reporting leases receivable of \$192,399 in the General Fund at December 31, 2025. These amounts represent the discounted future lease payments. This discount is being amortized using the interest method. For 2025, the City recognized lease revenue of \$11,334 and interest revenue of \$5,261 in the General Fund related to lease payments received. These lease revenue amounts exclude short-term leases. A description of the City's leasing arrangements is as follows:

City of Wellston, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2025

Land Lease - The City has entered into a lease with Acorn Development Inc. for the lease of land.

Cell Tower Lease – The City has entered into two lease agreements for a cell tower with Alltel, which later was renamed American Tower with the following terms:

Company	Lease Commencement Date	Years	Lease Ending Date	Payment Method
Alltel - American Tower	2023	12	2035	Monthly
Acorn Development Inc.	1987	50	2037	Monthly

A summary of future lease revenue is as follows:

Year	Principal	Interest
2026	\$11,627	\$4,969
2027	12,811	4,660
2028	14,348	4,298
2029	14,782	3,914
2030	15,179	3,517
2031-2035	89,973	10,807
2036-2037	33,679	708
	<u>\$192,399</u>	<u>\$32,873</u>

Opioid Settlement Monies

During 2021, Ohio reached an agreement with the three largest distributors of opioids. Subsequently, settlements have been reached with other distributors. As contingencies related to timing and measurement are resolved, a receivable will be reported in accompanying financial statements as a part of accounts receivable.

As a participating subdivision, the City reported \$60,254 as an account receivable related to opioid settlement monies in the OneOhio Special Revenue Fund in the accompanying financial statements. Collections of these settlement monies are expected to extend through 2038 with none expected to be collected within one year of the date of the financial statements.

NOTE 10 - CAPITAL ASSETS

Capital asset activity for the year ended December 31, 2025, was as follows:

City of Wellston, Ohio
Notes to the Basic Financial Statements

Note 11 - Defined Benefit Pension Plans

The Statewide retirement systems provide both pension benefits and other postemployment benefits (OPEB).

Net Pension Liability /Net OPEB Liability (Asset)

The net pension liability and the net OPEB liability (asset) reported on the statement of net position represent liabilities to employees for pensions and OPEB, respectively. Pensions/OPEB are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions/OPEB are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

City of Wellston, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2025

The net pension/OPEB liability (asset) represent the City's proportionate share of each pension/OPEB plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension/OPEB plan's fiduciary net position. The net pension/OPEB liability (asset) calculations are dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting these estimates annually.

Ohio Revised Code limits the City's obligation for this liability to annually required payments. The City cannot control benefit terms or the manner in which pensions are financed; however, the City does receive the benefit of employees' services in exchange for compensation including pension and OPEB.

GASB 68/75 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires funding to come from these employers. All pension contributions to date have come solely from these employers (which also includes pension costs paid in the form of withholdings from employees). The retirement systems may allocate a portion of the employer contributions to provide for these OPEB benefits. In addition, health care plan enrollees pay a portion of the health care costs in the form of a monthly premium. State statute requires the retirement systems to amortize unfunded pension liabilities within 30 years. If the pension amortization period exceeds 30 years, each retirement system's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension/OPEB liability (asset). Resulting adjustments to the net pension/OPEB liability (asset) would be effective when the changes are legally enforceable. The Ohio Revised Code permits but does not require the retirement systems to provide healthcare to eligible benefit recipients.

The proportionate share of each plan's unfunded benefits is presented as a *net pension/OPEB asset* or a long-term *net pension/OPEB liability* on the accrual basis of accounting. Any liability for the contractually required pension/OPEB contribution outstanding at the end of the year is included in *intergovernmental payable*. The remainder of this note includes the required pension disclosures. See Note 12 for the required OPEB disclosures.

Ohio Public Employees Retirement System (OPERS)

Plan Description - City employees, other than full-time police and firefighters, participate in the Ohio Public Employees Retirement System (OPERS).

OPERS is a cost-sharing, multiple employer public employee retirement system which administers two separate pension plans. The traditional pension plan is a cost-sharing, multiple-employer defined benefit pension plan, and the member-directed plan is a defined contribution plan.

Participating employers are divided into state, local, law enforcement and public safety divisions. While members in the state and local divisions may participate in both plans, law enforcement and public safety divisions exist only within the traditional pension plan.

The traditional pension plan also includes members of the legacy combined plan, a hybrid defined benefit/defined contribution plan referred to as the combined plan division of the traditional pension plan throughout this disclosure. Prior to January 1, 2024, the combined plan was a separate pension plan. Effective January 1, 2022, the combined plan was no longer available for member selection. In October 2023, the legislature approved House Bill (HB) 33 which allowed for the consolidation of the combined plan into the traditional pension plan. The combined plan was consolidated into the traditional pension plan effective January 1, 2024, and is tracked as a separate division within the traditional pension plan. No changes were made to the benefit design features of the combined plan as part of this consolidation so that

City of Wellston, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2025

members in this plan will experience no changes. Throughout this disclosure, references to the traditional pension plan are inclusive of the combined plan division, unless otherwise noted.

Members of the combined plan division earn a formula benefit similar to, but at a factor less than, the traditional pension plan benefit. This defined benefit is funded by employer contributions and associated investment earnings. Additionally, combined plan division member contributions are deposited into a defined contribution account in which the member self-directs the investment. Upon retirement or termination, the member may choose a defined contribution retirement distribution that is equal in amount to the member's contributions to the plan and investment gains or losses on those contributions. Members in this division may also elect to annuitize their defined contribution account balances.

OPERS provides retirement, disability, survivor and death benefits, and annual cost of living adjustments to members of the traditional and combined plans. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about OPERS' fiduciary net position that may be obtained by visiting <https://www.opers.org/financial/reports.shtml>, by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling 800-222-7377.

Senate Bill (SB) 343 was enacted into law with an effective date of January 7, 2013. In the legislation, members in the traditional and combined plans were categorized into three groups with varying provisions of the law applicable to each group. The following table provides age and service requirements for retirement and the retirement formula applied to final average salary (FAS) for the three member groups under the traditional pension plan (applicable combined plan division requirements are separately identified) as per the reduced benefits adopted by SB 343 (see OPERS Annual Comprehensive Financial Report referenced above for additional information, including requirements for reduced and unreduced benefits):

Group A	Group B	Group C
Eligible to retire prior to January 7, 2013 or five years after January 7, 2013	20 years of service credit prior to January 7, 2013 or eligible to retire ten years after January 7, 2013	Members not in other Groups and members hired on or after January 7, 2013
State and Local	State and Local	State and Local
Age and Service Requirements: Age 60 with 60 months of service credit or Age 55 with 25 years of service credit	Age and Service Requirements: Age 60 with 60 months of service credit or Age 55 with 25 years of service credit	Age and Service Requirements: Age 57 with 25 years of service credit or Age 62 with 5 years of service credit
Traditional Pension Plan Formula: (Excluding Combined Plan Division) 2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30	Traditional Pension Plan Formula: (Excluding Combined Plan Division) 2.2% of FAS multiplied by years of service for the first 30 years and 2.5% for service years in excess of 30	Traditional Pension Plan Formula: (Excluding Combined Plan Division) 2.2% of FAS multiplied by years of service for the first 35 years and 2.5% for service years in excess of 35
Combined Plan Division Formula: 1% of FAS multiplied by years of service for the first 30 years and 1.25% for service years in excess of 30	Combined Plan Division Formula: 1% of FAS multiplied by years of service for the first 30 years and 1.25% for service years in excess of 30	Combined Plan Division Formula: 1% of FAS multiplied by years of service for the first 35 years and 1.25% for service years in excess of 35

Traditional pension plan state and local members (excluding the combined plan division) who retire before meeting the age-and-years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount. The amount of a member's pension benefit vests at retirement.

Law enforcement and public safety members who retire before meeting the age-and-years of service credit requirement for unreduced benefits receive a percentage reduction in the benefit amount.

City of Wellston, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2025

Combined plan division members retiring before age 65 with less than 30 years of service credit receive a percentage reduction in benefit.

Final average Salary (FAS) represents the average of the three highest years of earnings over a member's career for Groups A and B. Group C is based on the average of the five highest years of earnings over a member's career.

When a traditional pension plan benefit recipient has received benefits for 12 months, the member is eligible for an annual cost of living adjustment (COLA). This COLA is calculated on the member's original base retirement benefit at the date of retirement and is not compounded. Members retiring under the combined plan division receive a cost-of-living adjustment on the defined benefit portion of their pension benefit. For those who retired prior to January 7, 2013, the cost-of-living adjustment is 3 percent. For those retiring on or after January 7, 2013, beginning in calendar year 2019, the adjustment is based on the average percentage increase in the Consumer Price Index, capped at 3 percent.

Defined contribution plan benefits are established in the plan documents, which may be amended by the Board. Member-directed plan and combined plan division members who have met the retirement eligibility requirements may apply for retirement benefits. The amount available for defined contribution benefits in the combined plan division consists of the member's contributions plus or minus the investment gains or losses resulting from the member's investment selections. Combined plan division members wishing to receive benefits must meet the requirements for both the defined benefit and defined contribution plans. Member-directed participants must have attained the age of 55, have money on deposit in the defined contribution plan and have terminated public service to apply for retirement benefits. The amount available for defined contribution benefits in the member-directed plan consists of the members' contributions, vested employer contributions and investment gains or losses resulting from the members' investment selections. Employer contributions and associated investment earnings vest over a five-year period, at a rate of 20 percent each year. At retirement, members may select one of several distribution options for payment of the vested balance in their individual OPERS accounts. Options include the annuitization of the benefit (which includes joint and survivor options and will continue to be administered by OPERS), partial lump-sum payments (subject to limitations), a rollover of the vested account balance to another financial institution, receipt of entire account balance, net of taxes withheld, or a combination of these options. When members choose to annuitize their defined contribution benefit, the annuitized portion of the benefit is reclassified to a defined benefit.

Funding Policy - The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

City of Wellston, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2025

	Traditional Pension Plan State and Local Divisions	
	Excluding Combined Plan Division	Combined Plan Division
	2025 Statutory Maximum Contribution Rates	
Employer	14.0 %	14.0 %
Employee *	10.0 %	10.0 %
2025 Actual Contribution Rates		
Employer:		
Pension **	14.0 %	12.0 %
Post-employment Health Care Benefits **	0.0	2.0
Total Employer	14.0 %	14.0 %
Employee	10.0 %	10.0 %

* Member contributions within the combined plan division are not used to fund the defined benefit retirement allowance.

** These pension and employer health care rates are for the traditional plan. The employer contributions rate for the member-directed plan is allocated 4 percent for health care with the remainder going to pension; however, effective July 1, 2022, a portion of the health care rate is funded with reserves.

Employer contribution rates are actuarially determined within the constraints of statutory limits for each division and expressed as a percentage of covered payroll.

For 2025, the City’s contractually required contribution was \$293,412 for the traditional pension plan. Of these amounts, \$27,569 is reported as an intergovernmental payable for the traditional pension plan.

Ohio Police & Fire Pension Fund (OP&F)

Plan Description – City full-time police and firefighters participate in Ohio Police and Fire Pension Fund (OP&F), a cost-sharing, multiple-employer defined benefit pension plan administered by OP&F. OP&F provides retirement and disability pension benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Benefit provisions are established by the Ohio State Legislature and are codified in Chapter 742 of the Ohio Revised Code. OP&F issues a publicly available financial report that includes financial information and required supplementary information and detailed information about OP&F fiduciary net position. That report may be obtained by visiting the OP&F website at www.op-f.org or by writing to the Ohio Police and Fire Pension Fund, 140 East Town Street, Columbus, Ohio 43215-5164.

Upon attaining a qualifying age with sufficient years of service, a member of OP&F may retire and receive a lifetime monthly pension. OP&F offers four types of service retirement: normal, service commuted, age/service commuted and actuarially reduced. Each type has different eligibility guidelines and is calculated using the member’s average annual salary. The following discussion of the pension formula relates to normal service retirement.

For members hired after July 1, 2013, the minimum retirement age is 52 for normal service retirement with at least 25 years of service credit. For members hired on or before July 1, 2013, the minimum retirement age is 48 for normal service retirement with at least 25 years of service credit.

City of Wellston, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2025

The annual pension benefit for normal service retirement is equal to a percentage of the allowable average annual salary. The percentage equals 2.5 percent for each of the first 20 years of service credit, 2.0 percent for each of the next five years of service credit and 1.5 percent for each year of service credit in excess of 25 years. The maximum pension of 72 percent of the allowable average annual salary is paid after 33 years of service credit (see OP&F Annual Comprehensive Financial Report referenced above for additional information, including requirements for Deferred Retirement Option Plan provisions and reduced and unreduced benefits).

Under normal service retirement, retired members who are at least 55 years old and have been receiving OP&F benefits for at least one year are eligible for a cost-of-living allowance adjustment. The age 55 provision for receiving a COLA does not apply to those who are receiving a permanent and total disability benefit, statutory survivors, and annuity beneficiaries. Members participating in the DROP program have separate eligibility requirements related to COLA.

The COLA amount for members who have 15 or more years of service credit as of July 1, 2013, and members who are receiving a pension benefit that became effective before July 1, 2013, will be equal to 3.0 percent of the member's base pension benefit.

The COLA amount for members who have less than 15 years of service credit as of July 1, 2013, and members whose pension benefit became effective on or after July 1, 2013, will be equal to a percentage of the member's base pension benefit where the percentage is the lesser of 3.0 percent or the percentage increase in the consumer price index, if any, over the twelve-month period that ends on the thirtieth day of September of the immediately preceding year, rounded to the nearest one-tenth of one percent.

Members who retired prior to July 24, 1986, or their surviving beneficiaries under optional plans are entitled to cost-of-living allowance increases. The annual increase is paid on July 1st of each year. The annual COLA increase is \$360 under a Single Life Annuity Plan with proportional reductions for optional payment plans.

Funding Policy – The Ohio Revised Code (ORC) provides statutory authority for member and employer contributions as follows:

	Police	Firefighters
2025 Statutory Maximum Contribution Rates		
Employer	19.50 %	24.00 %
Employee	12.25 %	12.25 %
2025 Actual Contribution Rates		
Employer:		
Pension	19.00 %	23.50 %
Post-employment Health Care Benefits	0.50	0.50
Total Employer	19.50 %	24.00 %
Employee	12.25 %	12.25 %

Employer contribution rates are expressed as a percentage of covered payroll. The City's contractually required contribution to OP&F was \$178,631 for 2025. Of this amount, \$22,243 is reported as an intergovernmental payable.

City of Wellston, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2025

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability for OPERS was measured as of December 31, 2024, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. OP&F's total pension liability was measured as of December 31, 2024, and was determined by rolling forward the total pension liability as of January 1, 2024, to December 31, 2024. The City's proportion of the net pension liability was based on the City's share of contributions to the pension plan relative to the contributions of all participating entities. Following is information related to the proportionate share and pension expense of the City's defined benefit pension plans:

	OPERS Former Traditional Plan	OPERS Legacy Combined Plan	OPERS Consolidated Traditional Pension Plan	OP&F	
Proportion of the Net Pension Liability/Asset:					
Current Measurement Date	N/A	N/A	0.01152700%	0.02512350%	
Prior Measurement Date	<u>0.01227800%</u>	<u>0.00000000%</u>	<u>0.01210900% *</u>	<u>0.02392400%</u>	
Change in Proportionate Share	N/A	N/A	<u>-0.00058200%</u>	<u>0.00119950%</u>	
					<u>Total</u>
Proportionate Share of the:					
Net Pension Liability			\$2,825,904	\$2,398,725	\$5,224,629
Pension Expense			375,571	383,733	759,304

*Effective January 1, 2024, the combined plan was consolidated with the traditional plan. The proportionate share percentage for the prior period for the consolidated traditional plan reflects an estimate based on the County's share of contributions to the pension plan relative to the contributions of all participating entities for both the former traditional plan and the legacy combined plan.

At December 31, 2025, the City reported deferred outflows of resources and deferred inflows of resources related to defined benefit pensions from the following sources:

City of Wellston, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2025

	OPERS Traditional Pension Plan	OP&F	Total
Deferred Outflows of Resources			
Differences between expected and actual experience	\$54,070	\$101,767	\$155,837
Changes of assumptions	0	94,627	94,627
Net difference between projected and actual earnings on pension plan investments	333,370	116,193	449,563
Changes in proportion and differences between City contributions and proportionate share of contributions	6,490	163,371	169,861
City contributions subsequent to the measurement date	293,412	178,631	472,043
Total Deferred Outflows of Resources	\$687,342	\$654,589	\$1,341,931
Deferred Inflows of Resources			
Differences between expected and actual experience	\$0	\$12,130	\$12,130
Changes of assumptions	0	27,186	27,186
Changes in proportion and differences between City contributions and proportionate share of contributions	113,124	37,570	150,694
Total Deferred Inflows of Resources	\$113,124	\$76,886	\$190,010

\$472,043 reported as deferred outflows of resources related to pension resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in 2026. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

	OPERS Traditional Pension Plan	OP&F	Total
Year Ending December 31:			
2026	\$125,608	\$163,613	\$289,221
2027	325,710	205,927	531,637
2028	(128,622)	88	(128,534)
2029	(41,890)	1,585	(40,305)
2030	0	24,023	24,023
Thereafter	0	3,836	3,836
Total	\$280,806	\$399,072	\$679,878

Actuarial Assumptions – OPERS

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

City of Wellston, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2025

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation. The total pension liability was determined by an actuarial valuation as of December 31, 2024, using the following key actuarial assumptions and methods applied to all periods included in the measurement in accordance with the requirements of GASB 67:

	OPERS Traditional Plan
Wage Inflation	2.75 percent
Future Salary Increases, including inflation	2.75 to 10.75 percent including wage inflation
COLA or Ad Hoc COLA:	
Pre-January 7, 2013 Retirees	3.0 percent, simple
Post-January 7, 2013 Retirees (Current Year)	2.9 percent, simple for calendar year 2025 then 2.05 percent, simple
Post-January 7, 2013 Retirees (Prior Year)	2.3 percent, simple through 2024, then 2.05 percent, simple
Investment Rate of Return	6.9 percent
Actuarial Cost Method	Individual Entry Age

For the prior year, the actuarial assumptions for the Combined Legacy Plan included future salary increases (including inflation) of 2.75 percent to 8.25 percent, including wage inflation.

Pre-retirement mortality rates are based on 130 percent of the Pub-2010 General Employee Mortality tables (males and females) for State and Local Government divisions and 170 percent of the Pub-2010 Safety Employee Mortality tables (males and females) for the Public Safety and Law Enforcement divisions. Post-retirement mortality rates are based on 115 percent of the PubG-2010 Retiree Mortality Tables (males and females) for all divisions. Post-retirement mortality rates for disabled retirees are based on the PubNS-2010 Disabled Retiree Mortality Tables (males and females) for all divisions. For all of the previously described tables, the base year is 2010 and mortality rates for a particular calendar year are determined by applying the MP-2020 mortality improvement scales (males and females) to all of these tables.

The most recent experience study was completed for the five-year period ended December 31, 2020.

During 2024, OPERS managed investments in three investment portfolios: the Defined Benefit portfolio, the Health Care portfolio, and the Defined Contribution portfolio. The Defined Benefit portfolio contains the investment assets for the Traditional Pension Plan, including the defined benefit component of the Combined Plan, and the annuitized accounts of the Member-Directed Plan. Within the Defined Benefit portfolio contributions into the plans are all recorded at the same time, and benefit payments all occur on the first of the month. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The annual money-weighted rate of return expressing investment performance, net of investment expenses and adjusted for the changing amounts actually invested, for the Defined Benefit portfolio was 8.8 percent for 2024.

The allocation of investment assets with the Defined Benefit portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Plan assets are managed on a total return basis with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the defined benefit pension plans. The long-term expected rate of return on defined benefit investment assets was determined using a building-block method in which best-estimate ranges of expected future real rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage, adjusted for inflation. Best estimates of geometric real rates of return were provided by the Board's investment consultant. For each major class that is included in the Defined Benefit portfolio's target asset allocation as of December 31, 2024, these best estimates are summarized below:

City of Wellston, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2025

Asset Class	Target Allocation	Weighted Average Long-Term Expected Real Rate of Return (Geometric)
Fixed Income	24.00%	2.42%
Domestic Equities	21.00	5.70
Real Estate	13.00	4.17
Private Equity	15.00	8.40
International Equities	20.00	6.10
Risk Parity	2.00	4.40
Other investments	5.00	2.54
Total	<u>100.00%</u>	

A simple weighted sum of asset class returns will not yield the results shown on the above table given the process followed to adjust for inflation, the compounding to a given time period, and the impact of volatility and correlations to the portfolio.

Discount Rate The discount rate used to measure the total pension liability for the current year was 6.9 percent for the traditional pension plan. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefits payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments for the traditional pension plan, combined plan and member-directed plan was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the City's Proportionate Share of the Net Pension Liability (Asset) to Changes in the Discount Rate The following table presents the City's proportionate share of the net pension liability (asset) calculated using the current period discount rate assumption of 6.9 percent, as well as what the City's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is one-percentage-point lower (5.9 percent) or one-percentage-point higher (7.9 percent) than the current rate:

	1% Decrease (5.90%)	Current Discount Rate (6.90%)	1% Increase (7.90%)
City's proportionate share of the net pension liability			
OPERS Traditional Plan	\$4,623,019	\$2,825,904	\$1,332,521

Actuarial Assumptions – OP&F

The total pension liability is determined by OP&F's actuaries in accordance with GASB Statement No. 67, as part of their annual valuation. Actuarial valuations of an ongoing retirement plan involve estimates of the value of reported amounts and assumptions about probability of occurrence of events far into the future. Examples include assumptions about future employment mortality, salary increases, disabilities, retirements, and employment terminations. Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future. Assumptions considered were: withdrawal rates, disability retirement, service retirement, DROP elections, mortality, percent married and forms of payment, DROP interest rate, CPI-based COLA, investment returns, salary increases and payroll growth. The changes in assumptions are

City of Wellston, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2025

being amortized over the estimated remaining useful life of the participants which was 6.16 years at December 31, 2024.

Key methods and assumptions used in the latest actuarial valuation, reflecting experience study results, prepared as of January 1, 2024, are presented below.

Actuarial Cost Method	Entry Age Normal
Investment Rate of Return	7.5 percent
Projected Salary Increases	3.75 percent to 10.5 percent
Payroll Growth	3.25 percent per annum, compounded annually, consisting of Inflation rate of 2.75 percent plus productivity increase rate of 0.5 percent
Cost of Living Adjustments	2.2 percent simple per year

Mortality for service retirees is based on the Pub-2010 Below-Median Safety Amount-Weighted Healthy Retiree mortality table with rates adjusted by 96.2 percent for males and 98.7 percent for females. All rates are projected using the MP-2021 Improvement Scale.

Mortality for disabled retirees is based on the Pub-2010 Safety Amount-Weighted Disabled Retiree mortality table with rates adjusted by 135 percent for males and 97.9 percent for females. All rates are projected using the MP-2021 Improvement Scale.

Mortality for contingent annuitants is based on the Pub-2010 Below-Median Safety Amount Weighted Contingent Annuitant Retiree mortality table with rates adjusted by 108.9 percent for males and 131 percent for females. All rates are projected using the MP-2021 Improvement Scale.

Mortality for active members is based on the Pub-2010 Below-Median Safety Amount-Weighted Employee mortality table. All rates are projected using the MP-2021 Improvement Scale.

The most recent experience study was completed for the five-year period ended December 31, 2021.

The long-term expected rate of return on pension plan investments was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The assumption is intended to be a long-term assumption (30 to 50 years) and is not expected to change absent a significant change in the asset allocation, a change in the underlying inflation assumption, or a fundamental change in the market that alters expected returns in future years.

Best estimates of the long-term expected real rates of return for each major asset class included in OP&F's target asset allocation as of December 31, 2024, are summarized below:

City of Wellston, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2025

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Domestic Equity	18.60 %	3.80 %
Non-US Equity	12.40	4.60
Private Markets	10.00	5.60
Core Fixed Income *	25.00	2.60
High Yield Fixed Income	7.00	4.30
Private Credit	5.00	6.70
U.S. Inflation Linked Bonds*	15.00	2.40
Midstream Energy Infrastructure	5.00	5.20
Real Assets	8.00	6.10
Gold	5.00	3.20
Private Real Estate	12.00	5.30
Commodities	2.00	2.50
Total	<u>125.00 %</u>	

Note: Assumptions are geometric.

* levered 2.0x

OP&F's Board of Trustees has incorporated the risk parity concept into OP&F's asset liability valuation with the goal of reducing equity risk exposure, which reduces overall Total Portfolio risk without sacrificing return and creating a more risk-balanced portfolio based on the relationship between asset classes and economic environments. From the notional portfolio perspective above, the Total Portfolio may be levered up to 1.25 times due to the application of leverage in certain fixed income asset classes.

Discount Rate For 2024, the total pension liability was calculated using the discount rate of 7.50 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from members would be computed based on contribution requirements as stipulated by state statute. Projected inflows from investment earnings were calculated using the longer-term assumed investment rate of return 7.50 percent. Based on those assumptions, OP&F's fiduciary net position was projected to be available to make all future benefit payment of current plan members. Therefore, a long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the City's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate Net pension liability is sensitive to changes in the discount rate. To illustrate the potential impact, the following table presents the net pension liability calculated using the discount rate of 7.50 percent, as well as what the net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.50 percent) or one percentage point higher (8.50 percent) than the current rate:

	1% Decrease (6.50%)	Current Discount Rate (7.50%)	1% Increase (8.50%)
City's proportionate share of the net pension liability	\$3,212,117	\$2,398,725	\$1,722,256

NOTE 12 - Defined Benefit OPEB Plans

See Note 11 for a description of the net OPEB liability (asset).

Ohio Public Employees Retirement System (OPERS)

Plan Description – The Ohio Public Employees Retirement System (OPERS) administers two separate pension plans: the traditional pension plan is a cost-sharing, multiple-employer defined benefit pension plan and the member-directed plan is a defined contribution plan.

OPERS maintains a cost-sharing, multiple-employer defined benefit post-employment health care trust, the 115 Health Care Trust (115 Trust), which was established in 2014 to fund health care for the Traditional Pension and Member-Directed plans. The Ohio Revised Code permits, but does not require, OPERS to provide health care to its eligible benefit recipients. Authority to establish and amend health care coverage is provided to the Board in Chapter 145 of the Ohio Revised Code.

With one exception, OPERS-provided health care coverage is neither guaranteed nor statutorily required. Ohio law currently requires Medicare Part A equivalent coverage or Medicare Part A premium reimbursement for eligible retirees and their eligible dependents.

OPERS offers a health reimbursement arrangement (HRA) allowance to benefit recipients meeting certain age and service credit requirements. The HRA is an account funded by OPERS that provides tax free reimbursement for qualified medical expenses such as monthly post-tax insurance premiums, deductibles, co-insurance, and co-pays incurred by eligible benefit recipients and their dependents.

OPERS members enrolled in the Traditional Pension Plan retiring with an effective date of January 1, 2022, or after must meet the following health care eligibility requirements to receive an HRA allowance:

Age 65 or older Retirees Minimum of 20 years of qualifying service credit

Age 60 to 64 Retirees Based on the following age-and-service criteria:

Group A 30 years of total service with at least 20 years of qualified health care service credit;

Group B 31 years of total service credit with at least 20 years of qualified health care service credit; or

Group C 32 years of total service credit with at least 20 years of qualified health care service credit.

Age 59 or younger Based on the following age-and-service criteria:

Group A 30 years of qualified health care service credit;

Group B 32 years of qualified health care service credit at any age or 31 years of qualified health care service credit and at least age 52; or

Group C 32 years of qualified health care service credit and at least age 55.

City of Wellston, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2025

Retirees who do not meet the requirement for coverage as a non-Medicare participant can become eligible for coverage at age 65 if they have at least 20 years of qualifying service.

Members with a retirement date on or prior to December 1, 2014, with at least 10 years of qualifying health care service credit will continue to be eligible for the OPERS health care program. Members with a retirement date after December 1, 2014, but prior to January 1, 2022, who were eligible to participate in the OPERS health care program will continue to be eligible after January 1, 2022, as summarized in the following table:

Group A	Group B	Group C
Age and Service Requirements <i>December 1, 2014 or Prior</i>	Age and Service Requirements <i>December 1, 2014 or Prior</i>	Age and Service Requirements <i>December 1, 2014 or Prior</i>
Any Age with 10 years of service credit	Any Age with 10 years of service credit	Any Age with 10 years of service credit
<i>January 1, 2015 through</i> <i>December 31, 2021</i>	<i>January 1, 2015 through</i> <i>December 31, 2021</i>	<i>January 1, 2015 through</i> <i>December 31, 2021</i>
Age 60 with 20 years of service credit or Any Age with 30 years of service credit	Age 52 with 31 years of service credit or Age 60 with 20 years of service credit or Any Age with 32 years of service credit	Age 55 with 32 years of service credit or Age 60 with 20 years of service credit

See the Age and Service Retirement section of the OPERS ACFR for a description of Groups A, B and C.

Beginning January 1, 2014, qualifying contributing service credit for health care will be accumulated only if the member's eligible salary is at least \$1,000 per month. Partial health care credit will not be granted for months in which eligible salary is less than \$1,000. Credit earned prior to January 2014 will not be affected by this requirement.

Recipients of disability benefits prior to January 1, 2014, have continued access to the health care program while the disability benefit continues and will not be subject to the five-year rule described below. The allowance will be determined in the same manner as an age-and-service retiree. If the recipient does not meet minimum age-and-service requirements, the minimum allowance will be used. Recipients with an initial disability effective date on or after January 1, 2014, will have coverage during the first five years of disability benefits. After five years, the recipient must meet minimum age-and-service health care eligibility requirements or be enrolled in Medicare (due to disability status) to remain enrolled in the OPERS health care program. If enrolled, the allowance will be determined in the same way as an age-and-service retiree.

Eligible retirees may receive a monthly HRA allowance for reimbursement of health care coverage premiums and other qualified medical expenses. Monthly allowances are determined using a percentage based on years of service and the age when the individual is first eligible for the HRA, multiplied by the base allowance as determined by the Board.

The base allowance was \$1,200 per month for non-Medicare retirees and \$350 per month for Medicare retirees throughout 2024. The base allowance for Medicare retirees increased to \$400 per month in January 2025. Monthly allowances range between 51 percent and 90 percent of the base allowance for both non-Medicare and Medicare retirees.

Retirees will have access to the OPERS Connector, which is a relationship with a vendor selected by OPERS to assist retirees participating in the health care program. The OPERS Connector may assist retirees in selecting and enrolling in the appropriate health care plan. While Medicare eligible retirees must use the Connector to select a vendor to be eligible to receive an HRA, non-Medicare eligible retirees may use the Connector or another vendor and still be eligible to receive an HRA.

City of Wellston, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2025

When members become Medicare-eligible, recipients enrolled in OPERS health care programs must enroll in Medicare Part A (hospitalization) and Medicare Part B (medical).

OPERS reimburses retirees who are not eligible for premium-free Medicare Part A (hospitalization) for their Part A premiums as well as any applicable surcharges (late-enrollment fees). Retirees within this group must enroll in Medicare Part A and select medical coverage, and may select prescription coverage, through the OPERS Connector. OPERS also will reimburse 50 percent of the Medicare Part A premium and any applicable surcharges for eligible spouses. Proof of enrollment in Medicare Part A and confirmation that the retiree is not receiving reimbursement or payment from another source must be submitted. The premium reimbursement is added to the monthly pension benefit.

Participants in the Member-Directed Plan have a portion of the employer contribution credited to an individual retiree medical account. Interest accrues based on the investment performance of the stable value fund, not to exceed 4 percent. Members with an account prior to July 1, 2015, become vested in the account at a rate of 20 percent for each year of participation until the member is fully vested at the end of five years. Members establishing accounts on or after July 1, 2015, vest over 15 years at a rate of 10 percent each year starting with the sixth year of participation.

Disclosures for the health care plan are presented separately in the OPERS financial report. Interested parties may obtain a copy by visiting <https://www.opers.org/financial/reports.shtml>, by writing to OPERS, 277 East Town Street, Columbus, Ohio 43215-4642, or by calling (614) 222-5601 or 800-222-7377.

Funding Policy - The Ohio Revised Code provides the statutory authority allowing public employers to fund postemployment health care through their contributions to OPERS. When funding is approved by OPERS Board of Trustees, a portion of each employer's contribution to OPERS is set aside to fund OPERS health care plans. Beginning in 2018, OPERS no longer allocated a portion of its employer contributions to health care for the traditional pension plan (except for the combined division).

Employer contribution rates are expressed as a percentage of the earnable salary of active members. For fiscal year 2025, state and local employers contributed at a rate of 14.0 percent of earnable salary. These are the maximum employer contribution rates permitted by the Ohio Revised Code. Active member contributions do not fund health care.

Each year, the OPERS Board determines the portion of the employer contribution rate that will be set aside to fund health care plans. For 2025, OPERS did not allocate any employer contribution to health care for members in the Traditional Pension Plan (excluding the Combined Plan Division). Beginning July 1, 2022, there was a two percent allocation to health care for the Combined Plan Division which has continued through 2025. The OPERS Board is also authorized to establish rules for the retiree or their surviving beneficiaries to pay a portion of the health care provided. Payment amounts vary depending on the number of covered dependents and the coverage selected. The employer contribution as a percentage of covered payroll deposited into the RMA for participants in the member-directed plan for 2025 was 4.0 percent. Effective July 1, 2022, a portion of the health care rate was funded with reserves which has continued through 2025.

Employer contribution rates are actuarially determined and are expressed as a percentage of covered payroll. The City's contractually required contribution was \$1,767. Of this amount, \$166 is reported as an intergovernmental payable.

City of Wellston, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2025

Ohio Police & Fire Pension Fund (OP&F)

Plan Description – The City contributes to the Ohio Police and Fire Pension Fund (OP&F) sponsored healthcare program, a cost-sharing, multiple-employer defined post-employment health care plan administered by a third-party provider. This program is not guaranteed and is subject to change at any time upon action of the Board of Trustees. On January 1, 2019, OP&F implemented a stipend model for health care.

A stipend funded by OP&F via the Health Care Stabilization Fund (HCSF) is available to eligible members through a Health Reimbursement Arrangement and can be used to reimburse retirees for qualified health care expenses. This stipend model allows eligible members the option of choosing an appropriate health care plan on the insurance exchange. Implementation of the stipend model has helped OP&F meet the funding goal of a 15-year future solvency projection in the HCSF.

Regardless of a benefit recipient's participation in the health care program, OP&F is required by law to pay eligible recipients of a service pension, disability benefit and spousal survivor benefit for their Medicare Part B insurance premium, up to the statutory maximum provided the benefit recipient is not eligible to receive reimbursement from any other source. Once OP&F receives the necessary documentation, a monthly reimbursement is included as part of the recipient's next benefit payment. The stipend provided by OP&F meets the definition of an Other Post Employment Benefit (OPEB) as described in Governmental Accounting Standards Board (GASB) Statement No. 75.

OP&F maintains funds for health care in two separate accounts: one account for health care benefits and one account for Medicare Part B reimbursements. A separate health care trust accrual account is maintained for health care benefits under IRS Code Section 115 trust. IRS Code Section 401(h) account is maintained for Medicare Part B reimbursements.

The Ohio Revised Code allows, but does not mandate, OP&F to provide OPEB benefits. Authority for the OP&F Board of Trustees to provide health care coverage to eligible participants and to establish and amend benefits is codified in Chapter 742 of the Ohio Revised Code.

OP&F issues a publicly available financial report that includes financial information and required supplementary information for the plan. The report may be obtained by visiting the OP&F website at www.op-f.org or by writing to the Ohio Police and Fire Pension Fund, 140 East Town Street, Columbus, Ohio 43215-5164.

Funding Policy – The Ohio Revised Code provides for contribution requirements of the participating employers and of plan members to the OP&F defined benefit pension plan. Participating employers are required to contribute to the pension plan at rates expressed as percentages of the payroll of active pension plan members, currently 19.5 percent and 24 percent of covered payroll for police and fire employer units, respectively. The Ohio Revised Code states that the employer contribution may not exceed 19.5 percent of covered payroll for police employer units and 24 percent of covered payroll for fire employer units. Active members do not make contributions to the OPEB Plan.

The Board of Trustees is authorized to allocate a portion of the total employer contributions for retiree health care benefits. For 2025, the portion of employer contributions allocated to health care was 0.5 percent of covered payroll. The amount of employer contributions allocated to the health care plan each year is subject to the Trustees' primary responsibility to ensure that pension benefits are adequately funded

The City's contractually required contribution to OP&F was \$4,475 for 2025. Of this amount, \$554 is reported as an intergovernmental payable.

City of Wellston, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2025

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB

The net OPEB liability (asset) and total OPEB liability for OPERS were determined by an actuarial valuation as of December 31, 2023, rolled forward to the measurement date of December 31, 2024, by incorporating the expected value of health care cost accruals, the actual health care payment, and interest accruals during the year. OP&F's total OPEB liability was measured as of December 31, 2024, and was determined by rolling forward the total OPEB liability as of January 1, 2024, to December 31, 2024. The City's proportion of the net OPEB liability (asset) was based on the City's share of contributions to the retirement plan relative to the contributions of all participating entities. Following is information related to the proportionate share:

	<u>OPERS</u>	<u>OP&F</u>	
Proportion of the Net OPEB Liability/Asset:			
Current Measurement Date	0.011286%	0.0251235%	
Prior Measurement Date	<u>0.011737%</u>	<u>0.0239240%</u>	
Change in Proportionate Share	<u><u>-0.000451%</u></u>	<u><u>0.0011995%</u></u>	
			<u>Total</u>
Proportionate Share of the:			
Net OPEB Liability	\$0	\$155,153	\$155,153
Net OPEB Asset	(\$264,570)	\$0	(\$264,570)
OPEB Expense	(\$84,835)	\$3,490	(\$81,345)

At December 31, 2025, the City reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	<u>OPERS</u>	<u>OP&F</u>	<u>Total</u>
Deferred Outflows of Resources			
Differences between expected and actual experience	\$0	\$6,968	\$6,968
Changes of assumptions	0	32,705	32,705
Net difference between projected and actual earnings on OPEB plan investments	5,448	6,318	11,766
Changes in proportion and differences between City contributions and proportionate share of contributions	3,185	31,504	34,689
City contributions subsequent to the measurement date	<u>1,767</u>	<u>4,475</u>	<u>6,242</u>
Total Deferred Outflows of Resources	<u><u>\$10,400</u></u>	<u><u>\$81,970</u></u>	<u><u>\$92,370</u></u>
Deferred Inflows of Resources			
Differences between expected and actual experience	\$12,876	\$31,657	\$44,533
Changes of assumptions	38,175	109,800	147,975
Changes in proportion and differences between City contributions and proportionate share of contributions	<u>410</u>	<u>6,229</u>	<u>6,639</u>
Total Deferred Inflows of Resources	<u><u>\$51,461</u></u>	<u><u>\$147,686</u></u>	<u><u>\$199,147</u></u>

City of Wellston, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2025

\$6,242 reported as deferred outflows of resources related to OPEB resulting from City contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability or an increase in the net OPEB asset in 2026. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

	OPERS	OP&F	Total
Year Ending December 31:			
2026	(\$25,592)	(\$7,156)	(\$32,748)
2027	25,883	(3,383)	22,500
2028	(31,888)	(14,547)	(46,435)
2029	(11,231)	(18,362)	(29,593)
2030	0	(19,486)	(19,486)
Thereafter	0	(7,257)	(7,257)
Total	(\$42,828)	(\$70,191)	(\$113,019)

Actuarial Assumptions - OPERS

Actuarial valuations of an ongoing plan involve estimates of the values of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and cost trends. Actuarially determined amounts are subject to continual review or modification as actual results are compared with past expectations and new estimates are made about the future.

Projections of health care costs for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of coverage provided at the time of each valuation and the historical pattern of sharing of costs between OPERS and plan members.

The actuarial valuation used the following key actuarial assumptions and methods applied to all prior periods included in the measurement in accordance with the requirements of GASB 74:

Wage Inflation	2.75 percent
Projected Salary Increases,	2.75 to 10.75 percent
	including wage inflation
Single Discount Rate	6.00 percent
Prior Year Single Discount Rate	5.70 percent
Investment Rate of Return	6.00 percent
Municipal Bond Rate	4.08 percent
Prior Year Municipal Bond Rate	3.77 percent
Health Care Cost Trend Rate	5.5 percent, initial
	3.50 percent, ultimate in 2039
Actuarial Cost Method	Individual Entry Age

Pre-retirement mortality rates are based on 130 percent of the Pub-2010 General Employee Mortality tables (males and females) for State and Local Government divisions and 170 percent of the Pub-2010 Safety Employee Mortality tables (males and females) for the Public Safety and Law Enforcement divisions. Post-retirement mortality rates are based on 115 percent of the PubG-2010 Retiree Mortality Tables (males and females) for all divisions. Post-retirement mortality rates for disabled retirees are based on the PubNS-2010 Disabled Retiree Mortality Tables (males and females) for all divisions. For all of the previously described tables, the base year is 2010 and mortality rates for a particular calendar year are determined by applying the MP-2020 mortality improvement scales (males and females) to all of these tables.

City of Wellston, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2025

The most recent experience study was completed for the five-year period ended December 31, 2020.

During 2024, OPERS managed investments in three investment portfolios: the Defined Benefit portfolio, the Health Care portfolio and the Defined Contribution portfolio. The Health Care portfolio includes the assets for health care expenses for the Traditional Pension Plan, Combined Plan Division, Member-Directed Plan eligible members. Within the Health Care portfolio, if any contribution are made into the plans, the contributions are assumed to be received continuously throughout the year based on the actual payroll payable at the time contributions are made, and health care-related payments are assumed to occur mid-year. Accordingly, the money-weighted rate of return is considered to be the same for all plans within the portfolio. The annual money-weighted rate of return expressing investment performance, net of investment expenses and adjusted for the changing amounts actually invested, for the Health Care portfolio was a gain of 10.0 percent for 2024.

The allocation of investment assets within the Health Care portfolio is approved by the Board of Trustees as outlined in the annual investment plan. Assets are managed on a total return basis with a long-term objective of continuing to offer a sustainable health care program for current and future retirees. OPERS' primary goal is to achieve and maintain a fully funded status for the benefits provided through the defined pension plans. Health care is a discretionary benefit. The long-term expected rate of return on health care investment assets was determined using a building-block method in which best-estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future rates of return by the target asset allocation percentage, adjusted for inflation. Best estimates of geometric rates of return were provided by the Board's investment consultant. For each major asset class that is included in the Health Care's portfolio's target asset allocation as of December 31, 2024, these best estimates are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Weighted Average Long-Term Expected Real Rate of Return (Geometric)</u>
Fixed Income	37.00%	2.37%
Domestic Equities	26.00	5.70
Real Estate Investment Trust	5.00	5.00
International Equities	26.00	6.10
Risk Parity	3.00	4.40
Other investments	3.00	2.50
Total	100.00%	

A simple weighted sum of asset class returns will not yield the results shown on the above table given the process followed to adjust for inflation, the compounding to a given time period, and the impact of volatility and correlations to the portfolio.

Discount Rate A single discount rate of 6.0 percent was used to measure the OPEB liability on the measurement date of December 31, 2024; however, the single discount rate used at the beginning of the year was 5.70 percent. Projected benefit payments are required to be discounted to their actuarial present value using a single discount rate that reflects (1) a long-term expected rate of return on OPEB plan investments (to the extent that the health care fiduciary net position is projected to be sufficient to pay benefits), and (2) tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the contributions for use with the long-term expected rate are not met). This single discount rate was based on the actuarially determined contribution rates of 6.00. The projection of cash flows used to determine this single discount

City of Wellston, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2025

rate assumed that employer contributions will be made at rates equal to the actuarially determined contribution rate. Based on these assumptions, the health care fiduciary net position and future contributions were sufficient to finance health care costs through 2124. As a result, the actuarial assumed long-term expected rate of return on health care investments was applied to projected costs through the year 2124, the duration of the projection period through which projected health care payments are fully funded. The tax-exempt municipal bond rate was not needed in the determination of the single discount rate.

Sensitivity of the City's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate

The following table presents the City's proportionate share of the net OPEB liability calculated using the single discount rate of 6.00 percent, as well as what the City's proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is one-percentage-point lower (5.00 percent) or one-percentage-point higher (7.00 percent) than the current rate:

	1% Decrease (5.00%)	Current Discount Rate (6.00%)	1% Increase (7.00%)
City's proportionate share of the net OPEB asset	(\$131,369)	(\$264,570)	(\$375,711)

Sensitivity of the City's Proportionate Share of the Net OPEB Liability to Changes in the Health Care Cost Trend Rate

Changes in the health care cost trend rate may also have a significant impact on the net OPEB liability or asset. The following table presents the net OPEB liability or asset calculated using the assumed trend rates, and the expected net OPEB liability or asset if it were calculated using a health care cost trend rate that is 1.0 percent lower or 1.0 percent higher than the current rate.

Retiree health care valuations use a health care cost-trend assumption that changes over several years built into the assumption. The near-term rates reflect increases in the current cost of health care; the trend starting in 2025 is 5.50 percent. If this trend continues for future years, the projection indicates that years from now virtually all expenditures will be for health care. A more reasonable alternative is the health plan cost trend will decrease to a level at, or near, wage inflation. On this basis, the actuaries project premium rate increases will continue to exceed wage inflation for approximately the next decade, but by less each year, until leveling off at an ultimate rate, assumed to be 3.50 percent in the most recent valuation.

	1% Decrease	Current Health Care Cost Trend Rate Assumption	1% Increase
City's proportionate share of the net OPEB asset	(\$268,607)	(\$264,570)	(\$260,029)

Actuarial Assumptions – OP&F

OP&F's total OPEB liability as of December 31, 2024, is based on the results of an actuarial valuation date of January 1, 2024, and rolled-forward using generally accepted actuarial procedures. The total OPEB liability is determined by OP&F's actuaries in accordance with GASB Statement No. 74, as part of their annual valuation. Actuarial valuations of an ongoing retirement plan involve estimates of the value of reported amounts and assumptions about probability of occurrence of events far into the future. Examples include assumptions about future employment mortality, salary increases, disabilities, retirements, and employment terminations. Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

City of Wellston, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2025

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases, actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total OPEB liability in the latest actuarial valuation are presented below:

Actuarial Cost Method	Entry Age Normal
Investment Rate of Return	7.5 percent
Projected Salary Increases	3.50 percent to 10.5 percent
Payroll Growth	3.25 percent
Blended discount rate:	
Current measurement rate	4.69 percent
Prior measurement rate	4.07 percent
Cost of Living Adjustments	2.2 percent simple per year
Projected Depletion Year of OPEB Assets	2039

Mortality for service retirees is based on the Pub-2010 Below-Median Safety Amount-Weighted Healthy Retiree mortality table with rates adjusted by 96.2 percent for males and 98.7 percent for females. All rates are projected using the MP-2021 Improvement Scale.

Mortality for disabled retirees is based on the Pub-2010 Safety Amount-Weighted Disabled Retiree mortality table with rates adjusted by 135 percent for males and 97.9 percent for females. All rates are projected using the MP-2021 Improvement Scale.

Mortality for contingent annuitants is based on the Pub- 2010 Below-Median Safety Amount Weighted Contingent Annuitant Retiree mortality table with rates adjusted by 108.9 percent for males and 131 percent for females. All rates are projected using the MP-2021 Improvement Scale.

Mortality for active members is based on the Pub-2010 Below-Median Safety Amount-Weighted Employee mortality table. All rates are projected using the MP- 2021 Improvement Scale.

The most recent experience study was completed for the five-year period ended December 31, 2021.

The OP&F health care plan follows the same asset allocation and long-term expected real rate of return for each major asset class as the pension plan, see Note 11.

Discount Rate For 2024, the total OPEB liability was calculated using the discount rate of 4.69 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from members would be computed based on contribution requirements as stipulated by state statute. Projected inflows from investment earnings were calculated using the longer-term assumed investment rate of return 7.5 percent. Based on those assumptions, OP&F's fiduciary net position was projected to not be

City of Wellston, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2025

able to make all future benefit payment of current plan members. Therefore, the long-term assumed rate of return on investments of 7.5 percent was applied to periods before December 31, 2038, and the Municipal Bond Index Rate of 4.04 percent was applied to periods on and after December 31, 2038, resulting in a discount rate of 4.69 percent.

Sensitivity of the City's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate
Net OPEB liability is sensitive to changes in the discount rate. To illustrate the potential impact, the following table presents the net OPEB liability calculated using the discount rate of 4.69 percent, as well as what the net OPEB liability would be if it were calculated using a discount rate that is one percentage point lower (3.69 percent), or one percentage point higher (5.69 percent), than the current rate:

	1% Decrease (3.69%)	Current Discount Rate (4.69%)	1% Increase (5.69%)
City's proportionate share of the net OPEB liability	\$192,648	\$155,153	\$123,389

NOTE 13 - OTHER EMPLOYEE BENEFITS

A. Deferred Compensation Plans

City employees and elected officials participate in a statewide deferred compensation plan created in accordance with Internal Revenue Code Section 457 and is considered an other employee benefit plan. Participation is on a voluntary payroll deduction basis. The plan permits deferral of compensation until future years. According to the plan, the deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency.

B. Employee Insurance Benefits

The City provides an amount equal to one year's salary in life insurance and accidental death and dismemberment insurance through Sun Life to its full-time employees and part-time employees working a minimum of more than thirty-two hours per week.

The City contracts with Michigan Conference of Teamsters for hospitalization and prescription insurance for all employees. Monthly premiums for single and family coverage are determined by options selected by each individual being insured, meeting certain rate criteria. The City pays 90 percent of premiums for all elected officials and employees. Premiums are paid from the same funds that pay the employees' salaries.

C. Compensated Absences

Vacation leave is earned at varying rates based upon length of service. A maximum number of vacation hours may be accumulated based on length of service. Any unused vacation exceeding the maximum allowance is eliminated from the employee's leave balance. At the time of termination of employment or death, an employee (or his estate) is paid for his unused vacation leave.

Sick leave is earned at the rate of 4.6 hours per eighty hours of service for police employees, 4.6 hours per eighty hours of service for fire employees, and 4.6 hours per eighty hours of service for all other employees. Sick leave can be accumulated without limit for all employees. In the case of death or retirement of an employee who has five years of service, an employee or his estate is paid for one-half of his accumulated sick leave up to a maximum payment equal to thirty days for police and fire personnel, and forty-five days for other city employees.

City of Wellston, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2025

NOTE 14 - RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City has addressed these various types of risks by purchasing comprehensive insurance through The Ohio Plan.

The types of coverage that the City has with The Ohio Plan are:

<u>Type of Coverage</u>	<u>Limit</u>	<u>Aggregate Limit</u>
General Liability	\$2,000,000 Per Occurrence	\$4,000,000
Public Officials Liability	2,000,000 Per Occurrence	4,000,000
Auto Liability	2,000,000 Per Occurrence	
Law Enforcement Professional Liability	2,000,000 Per Occurrence	4,000,000
Employee Dishonesty	50,000 Per Occurrence	
Property Damage	29,192,163	

Settled claims have not exceeded their commercial coverage in any of the past three years. There have been no significant reductions in insurance coverage from the prior year.

For 2025, the City paid the state workers' compensation system a premium based on a rate per \$100 of salaries. This rate is calculated based on accidents, history, and administrative costs. The participation in this state mandated insurance fund allows the City to transfer all risk associated with workers' compensation.

NOTE 15 - LONG-TERM LIABILITIES

Changes in the City's long-term liabilities during 2025 consist of the following:

<u>Governmental Activities:</u>	<u>Outstanding</u> <u>12/31/2024</u>	<u>Additions</u>	<u>Reductions</u>	<u>Outstanding</u> <u>12/31/2025</u>	<u>Amounts</u> <u>Due Within</u> <u>One Year</u>

Increases and decreases to compensated absences are presented net on the preceding tables.

There are no repayment schedules for the net pension/OPEB liabilities. However, employer pension contributions are made from the following funds: General Fund; the Street and Cemetery Special Revenue Funds; and the Water, Sewer, and Garbage Enterprise Funds. For additional information related to the net pension/OPEB liabilities, see Notes 11 and 12.

As of December 31, 2025, the City's legal debt margin (the ability to issue additional amounts of general obligation bonded debt) was \$3,539,927, with an unvoted debt margin of \$4,818,454.

Governmental Activities:

In 2016, the City borrowed \$90,250 to renovate the fire department. The loan matures in 2026 and will be paid from the Fire Levy Special Revenue Fund. The City's outstanding Fire Department Renovation loan from direct borrowings contain provisions that in the event of default all indebtedness will become immediately due and payable, and the lender shall have all the rights and remedies provided in the related documents or available at law in equity or otherwise.

In 2018, the City borrowed \$565,500 to purchase a fire rescue pumper. This loan matures in 2030 and will be paid from the County Sales Tax Special Revenue Fund. The City's outstanding Fire Rescue Pumper loan from direct borrowings contain provisions that in the event of default all indebtedness will become immediately due and payable, and the lender shall have all the rights and remedies provided in the related documents or available at law in equity or otherwise.

City of Wellston, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2025

In 2020, the City borrowed \$88,000 to purchase air packs for the fire department. This loan matures in 2030 and will be paid from the Fire Levy Special Revenue Fund. The City's outstanding USDA Air Pack loan from direct borrowings contain provisions that in the event of default all indebtedness will become immediately due and payable, and the lender shall have all the rights and remedies provided in the related documents or available at law in equity or otherwise.

In 2024, the City borrowed \$540,000 to purchase a fire truck. The loan matures in 2034 and will be paid from the County Sales Tax Special Revenue Fund. The City's outstanding Fire Truck loan from direct borrowings contain provisions that in the event of default all indebtedness will become immediately due and payable, and the lender shall have all the rights and remedies provided in the related documents or available at law in equity or otherwise.

The annual requirements to retire these loans outstanding as of December 31, 2025, are as follows:

<u>Year</u>	<u>Principal</u>	<u>Interest</u>
2026	\$157,741	\$43,006
2027	104,884	36,517
2028	109,789	31,723
2029	114,900	26,513
2030	120,384	21,127
2031-2034	254,692	39,843
	<u>\$862,390</u>	<u>\$198,729</u>

The City had an outstanding agreement to lease chairs. The lease payments were discounted based on the interest rate stated in the lease agreement. This discount was amortized using the interest method over the life of the lease. This lease was paid from the General Fund and matured in 2025.

Business-Type Activities:

OPWC Loans

The City's outstanding OPWC loan from direct borrowings contain provisions that in the event of default (1) OPWC may apply late fees of 8 percent per year, (2) loans more than 60 days late will be turned over to the Attorney General's office for collection, and as provided by law, OPWC may require that such payment be taken from the City's share of the county undivided local government fund, and (3) the outstanding amounts shall, at OPWC's option, become immediately due and payable.

An OPWC loan was issued in 2009 in the amount of \$75,259 for South Water Plant Improvements. Repayment will be made from user fees. The loan will be paid off in 2031.

Principal requirements to retire the City's OPWC loan outstanding at December 31, 2025, are:

City of Wellston, Ohio

2027	3,763
2028	3,763
2029	3,763
2030	3,763
	\$16,933

OWDA Loans

The City’s outstanding OWDA loans from direct borrowings contain provisions that in an event of default (1) the amount of such default shall bear interest at the default rate from the due date until the date of payment, (2) if any of the charges have not been paid within 30 days, in addition to the interest calculated at the default rate, a late charge of 1 percent on the amount of each default shall also be paid to the OWDA, and (3) for each additional 30 days during which the charges remain unpaid, the City shall continue to pay an additional late charge of 1 percent on the amount of the default until such charges are paid.

An OWDA loan was issued in 2010 in the amount of \$81,729 for water system improvements. Repayment will be made from user fees and will be paid off in 2040.

An OWDA loan was issued in 2011 for upgrades to the North Water Treatment Plant in the amount of \$392,747. Repayment will be made from user fees and a loan forgiveness grant and will be paid off in 2042.

An OWDA loan was issued in 2011 for replacement of the Jenkins Water Tank in the amount of \$293,857. Repayment will be made from user fees and a loan forgiveness grant and will be paid off in 2042.

An OWDA loan was issued in 2013 for additional upgrades to the North Water Treatment Plant (Fresh Water Phase II) in the amount of \$75,000. Repayment will be from user fees and will be paid off in 2029.

An OWDA loan was issued in 2016 for upgrades to the South Water Treatment Plant (South Water Upgrade) . This loan was rolled over to the 2017 OWDA loan issued in 2017 in the amount of \$652,277. Repayment will be made from user fees. The loan has not been fully drawn, and an amortization schedule is not available.

An OWDA loan was issued in 2022 for the New York and Broadway Water Improvements in the amount of \$361,999. Repayment will be from user fees and will be paid off in 2054.

An OWDA loan was approved in 2024 for the Water Treatment Plant Phase 1 in the amount of \$5,335,000. As of December 31, 2025, \$1,308,845 has been issued. The loan has not been fully drawn, and an amortization schedule is not available.

An OWDA loan was approved in 2024 for the New York and Broadway Sanitary Sewer Improvements in the amount of \$1,351,868. As of December 31, 2025, \$657,979 has been issued. The loan has not been fully drawn, and an amortization schedule is not available.

Principal and interest requirements to retire the City’s enterprise OWDA loans outstanding, excluding those not yet fully drawn, at December 31, 2025, are as follows:

City of Wellston, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2025

Year	Principal	Interest

2051-2054	42,234	0
Total	\$898,976	\$51,102

Other Loans

In 2018, the City borrowed \$440,023 for the purchase of equipment to be used in water distribution and meter departments. Repayment will be made from the Water and Sewer Departments and will be paid off in 2028.

Principal and interest requirements to retire the FlexNet loan outstanding at December 31, 2025, are as follows:

Year	Principal	Interest
2026	\$47,980	\$6,237
2027	50,360	4,242
2028	52,813	2,170
	\$151,153	\$12,649

In 2020, the City borrowed \$1,545,000 to refinance the City's outstanding General Obligation Bonds of \$441,000 and Revenue Bonds of \$1,105,000. This note is from direct borrowings and contains provisions that in the event of default the issuer may (1) declare the entire principal amount outstanding and accrued interest immediately due and payable (2) the interest rate will increase to 25 percent per annum based on a year of 360 days. Repayment will be made from the Sewer Department and will be paid off in 2035.

Principal and interest requirements to retire the City's Sewer Refinance loan outstanding at December 31, 2025, are as follows:

Year	Principal	Interest
2026	\$96,519	\$32,317
2027	99,347	29,489
2028	102,258	26,578
2029	105,255	23,582
2030	108,339	20,498
2031-2035	591,213	52,971
	\$1,102,931	\$185,435

In 2022, the City borrowed \$268,370 to purchase a garbage truck. This loan matures in 2028 and will be paid from the Garbage Fund. The City's outstanding Garbage Truck loan from direct borrowings contain provisions that in the event of default all indebtedness will become immediately due and payable, and the lender shall have all the rights and remedies provided in the related documents or available at law in equity or otherwise.

City of Wellston, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2025

Principal and interest requirements to retire the City’s Garbage Truck loan outstanding at December 31, 2025, are as follows:

<u>Year</u>	<u>Principal</u>	<u>Interest</u>
2026	\$45,248	\$3,514
2027	46,391	2,372
2028	47,562	1,201
	<u>\$139,201</u>	<u>\$7,087</u>

The City had an outstanding agreement to lease trash cans. The lease payments were discounted based on the interest rate stated in the lease agreement. This discount was amortized using the interest method over the life of the lease. This lease matured in 2025.

Pledged Revenues

The City has pledged future customer water revenues, net of specified operating expenses, to repay seven Ohio Water Development Authority loans. The loans are payable solely from customer net revenues.

The final loan payment will be in 2054. Net revenues include all revenues received by the water utility less all operating expenses other than depreciation/amortization expense. Annual principal and interest payments on the loans are expected to require 12 percent of net revenues. The total principal and interest remaining to be paid on the loans is \$2,779,455. Principal and interest payments for the current year were \$79,406, net revenues were \$636,007 and total revenues were \$2,954,403.

The City has pledged future customer sewer revenues, net of specified operating expenses, to repay an Ohio Water Development Authority loan. The loan is payable solely from customer net revenues.

Net revenues include all revenues received by the sewer utility less all operating expenses other than depreciation/amortization expense. The total principal remaining to be paid on the loan is \$657,979. Due to the loan not being fully drawn, no principal or interest payments were made during 2025.

NOTE 16 - INTERFUND BALANCES AND TRANSFERS

A. Internal Balances – Change in Proportionate Share

The City uses an internal proportionate share to allocate its net pension/OPEB liability and corresponding deferred outflows/inflows of resources and pension/OPEB expense to its various funds. This allocation creates a change in internal proportionate share. The effects of the internal proportionate share are eliminated from the pension deferred outflows/inflows of resources in the governmental and business-type activities columns of the statement of net position, except for any net residual amounts between governmental and business-type activities. These residual amounts are eliminated in the total column of the entity wide statement of net position, thus allowing the total column to present the change in proportionate share for the City as a whole.

City of Wellston, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2025

	Pension		OPEB	
	Deferred Outflows	Deferred Inflows	Deferred Outflows	Deferred Inflows
Governmental Activities	\$0	\$24,046	\$1,447	\$0
Business-Type Activities				
Water	23,250	0	0	1,396
Sewer	0	30,226	1,882	0
Garbage	31,022	0	0	1,933
Total Business-Type Activities	54,272	30,226	1,882	3,329
Elimination from Proprietary Fund Statements	(30,226)	(30,226)	(1,882)	(1,882)
<i>Total Business-Type Activities</i>	24,046	0	0	1,447
Total	\$24,046	\$24,046	\$1,447	\$1,447

B. Internal Balances

Interfund balances at December 31, 2025, arise from the provision of cash flow resources from the General Fund until the receipt of grant monies by the capital projects fund.

	Receivables	Payables
General Fund	\$1,375	\$0
Other Governmental Fund:		
Railroad Depot	0	1,375
Total All Funds	<u>\$1,375</u>	<u>\$1,375</u>

C. Transfers

Transfers were used to move unrestricted revenues collected in the General Fund to finance various programs accounted for in other funds in accordance with budgetary authorizations. The General Fund transferred \$150,000 to the Recreation Special Revenue Fund and \$33,631 to the Railroad Depot Special Revenue Fund.

NOTE 17 - CONTINGENT LIABILITIES

A. Litigation

The City is currently party to legal proceedings. The City has determined that any potential liability will not have a material effect on the financial statements.

B. Federal and State Grants

For the period January 1, 2025, to December 31, 2025, the City received federal and state grants for specific purposes that are subject to review and audit by grantor agencies or their designee. Such audits could lead to a request for reimbursement to the grantor agency for expenditures disallowed under the terms of the grant. Based on prior experience, the City believes such disallowance, if any, would be immaterial.

City of Wellston, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2025

NOTE 18 - SIGNIFICANT COMMITMENTS

A. Encumbrances

Encumbrances are commitments related to unperformed contracts for goods or services. Encumbrance accounting is utilized to the extent necessary to ensure effective budgetary control and accountability and to facilitate effective cash planning and control. At year end, the amount of encumbrances expected to be honored upon performance by the vendor in the next year were as follows:

General Fund	\$34,844
Fire Levy Fund	49,204
County Sales Tax Fund	6,361
Nonmajor Governmental Funds	34,592
Water Fund	193,320
Sewer Fund	84,947
Nonmajor Enterprise Fund	150
	\$403,418

B. Contractual Commitments

As of December 31, 2025, the City had contractual commitments as follows:

Project	Fund	Contract Amount	Amount Expended	Balance at 12/31/2025
ODOT TAP Street Lights	Sales Tax	\$37,225	\$36,264	\$961
Blamer Ball Field	Recreation	429,875	426,491	3,384
Cemetery Phase 1	Cemetery	102,200	102,200	0
Amler RV Park	Recreation	77,330	66,402	10,928
Total Governmental		646,630	631,357	4,345
Water Treatment Plant	Water	7,783,717	2,863,243	4,920,474
ODOT TAP Water Basin	Water	37,225	35,946	1,279
New York and Broadway Sewer Line	Sewer	4,603,916	4,384,698	219,218
ODOT TAP Storm Sewer	Sewer	37,225	36,522	703
12th Street Storm Sewer	Sewer	17,113	11,790	5,323
WWTP Sewer	Sewer	333,000	31,472	301,528
Sanitary Sewer	Sewer	424,300	11,867	412,433
Total Business-Type		13,236,496	7,375,538	5,860,958
Total		\$13,883,126	\$8,006,895	\$5,865,303

NOTE 19 – ACCOUNTABILITY AND COMPLIANCE

A. Accountability

The Railroad Depot Capital Projects Fund had a deficit fund balance of \$1,375 as of December 31, 2025. This deficit is the result of the short-term interfund loan from the General Fund needed for operations until the receipt of grant monies. The General Fund provides transfers to cover deficit balances; however, this is done when cash is needed rather than when accruals occur.

City of Wellston, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2025

B. Compliance

The Fire Levy Special Revenue Fund had final appropriations in excess of estimated revenues plus carryover balances, of \$88,259, contrary to Section 5705.39, Ohio Revised Code.

Contrary to the Ohio Revised Code Section 5705.41(B) the following accounts in the General Fund had expenditures plus encumbrances in excess of appropriations:

<u>Fund/Department/Object</u>	<u>Appropriations Plus Prior Year Encumbrances</u>	<u>Expenditures Plus Encumbrances</u>	<u>Excess</u>
General			
Police			
Personal Services	\$733,626	\$767,584	(\$33,958)
Contractual Services	70,787	88,554	(17,767)
Materials and Supplies	14,664	34,887	(20,223)
Capital Outlay	1,150	75,243	(74,093)
Other	0	58,600	(58,600)

NOTE 20 - JOINTLY GOVERNED ORGANIZATION

The Regional Income Tax Agency (RITA) is a regional council of governments formed to establish a central collection facility for the purpose of administering the income tax laws of the members and for the purpose of collecting income taxes on behalf of each member. RITA currently has approximately 350 members in the council of governments. Each member has one representative to the council of governments and is entitled to one vote on items under consideration. RITA is administered by a nine-member board of trustees elected by the members of the council of governments. The board exercises total control over RITA's operation including budgeting, appropriating, contracting and designating management. Each participant's degree of control is limited to its representation on the council. For 2025, the membership costs are not yet available; however, they are not expected to be significantly different from 2024. For 2025, the City paid RITA \$46,947 for income tax collection services.

NOTE 21 - ASSET RETIREMENT OBLIGATIONS

Ohio Revised Code Section 6111.44 requires the City to submit any changes to their sewerage system to the Ohio EPA for approval. Through this review process, the City would be responsible to address any public safety issues associated with their wastewater treatment facilities. These public safety issues would include removing/filling any tankage, cleaning/removing certain equipment, and backfilling certain exposed areas. This asset retirement obligation (ARO) of \$166,000 associated with the City wastewater treatment facilities were estimated by the City service director. The remaining useful life of these facilities range from 8 to 40 years.

NOTE 22 – COVID-19

The United States and the State of Ohio declared a state of emergency in March of 2020 due to the COVID-19 pandemic. Ohio's state of emergency ended in June 2021 while the national state of emergency ended in April 2023. The City will continue to spend available COVID-19 funding consistent with the applicable program guidelines.

For the Year Ended December 31, 2025

Changes in Assumptions – OPERS Pension – Traditional Plan

Amounts reported beginning in 2022 incorporate changes in assumptions used by OPERS in calculating the total pension liability in the latest actuarial valuation. These new assumptions compared with those used in prior years are presented below:

	<u>Beginning in 2022</u>	<u>2019 through 2021</u>	<u>2018 and 2017</u>	<u>2016</u>
Wage Inflation	2.75 percent	3.25 percent	3.25 percent	3.75 percent
Future Salary Increases	2.75 to 10.75 percent including wage inflation	3.25 to 10.75 percent including wage inflation	3.25 to 10.75 percent including wage inflation	4.25 to 10.05 percent including wage inflation
COLA or Ad Hoc COLA:				
Pre-January 7, 2013 Retirees	3 percent, simple	3 percent, simple	3 percent, simple	3 percent, simple
Post-January 7, 2013 Retirees	see below	see below	see below	see below
Investment Rate of Return	6.9 percent	7.2 percent	7.5 percent	8 percent
Actuarial Cost Method	Individual Entry Age	Individual Entry Age	Individual Entry Age	Individual Entry Age

The assumptions related to COLA or Ad Hoc COLA for Post-January 7, 2013, retirees are as follows:

COLA or Ad Hoc COLA, Post-January 7, 2013 Retirees:	
2025	2.9 percent, simple through 2025, then 2.05 percent, simple
2024	2.3 percent, simple through 2024, then 2.05 percent, simple
2023	3.0 percent, simple through 2023 then 2.05 percent, simple
2022	3.0 percent, simple through 2022 then 2.05 percent, simple
2021	0.5 percent, simple through 2021 then 2.15 percent, simple
2020	1.4 percent, simple through 2020 then 2.15 percent, simple
2017 through 2019	3.0 percent, simple through 2018 then 2.15 percent, simple
2016	3.0 percent, simple through 2018 then 2.80 percent, simple

Amounts reported beginning in 2022 use pre-retirement mortality rates based on 130 percent of the Pub-2010 General Employee Mortality tables (males and females) for State and Local Government divisions and 170 percent of the Pub-2010 Safety Employee Mortality tables (males and females) for the Public Safety and Law Enforcement divisions. Post-retirement mortality rates are based on 115 percent of the PubG-2010 Retiree Mortality Tables (males and females) for all divisions. Post-retirement mortality rates for disabled retirees are based on the PubNS-2010 Disabled Retiree Mortality Tables (males and females) for all divisions. For all the previously described tables, the base year is 2010 and mortality rates for a particular calendar year are determined by applying the MP-2020 mortality improvement scales (males and females) to all these tables.

Amounts reported for 2017 through 2021 use mortality rates based on the RP-2014 Healthy Annuitant mortality table. For males, Healthy Annuitant Mortality tables were used, adjusted for mortality

City of Wellston, Ohio
Notes to the Required Supplementary Information
For the Year Ended December 31, 2025

improvement back to the observation period base of 2006 and then established the base year as 2015. For females, Healthy Annuitant Mortality tables were used, adjusted for mortality improvements back to the observation period base year of 2006 and then established the base year as 2010. The mortality rates used in evaluating disability allowances were based on the RP-2014 Disabled mortality tables, adjusted for mortality improvement back to the observation base year of 2006 and then established the base year as 2015 for males and 2010 for females. Mortality rates for a particular calendar year for both healthy and disabled retiree mortality tables are determined by applying the MP-2015 mortality improvement scale to the above described tables.

Amounts reported for 2016 use mortality rates based on the RP-2000 Mortality Table projected 20 years using Projection Scale AA. For males, 105 percent of the combined healthy male mortality rates were used. For females, 100 percent of the combined healthy female mortality rates were used. The mortality rates used in evaluating disability allowances were based on the RP-2000 mortality table with no projections. For males, 120 percent of the disabled female mortality rates were used set forward two years. For females, 100 percent of the disabled female mortality rates were used.

Changes in Assumptions – OPERS Pension – Combined Plan

Beginning with 2025, the combined plan was consolidated into the traditional pension plan, and is tracked as a separate division within the traditional pension plan.

Amounts reported beginning in 2022 incorporate changes in assumptions used by OPERS in calculating the total pension liability in the latest actuarial valuation. These new assumptions compared with those used in prior years are presented below:

	2022 - 2024	2019 through 2021	2018
Wage Inflation	2.75 percent	3.25 percent	3.25 percent
Future Salary Increases	2.75 to 8.25 percent including wage inflation	3.25 to 8.25 percent including wage inflation	3.25 to 8.25 percent including wage inflation
COLA or Ad Hoc COLA:			
Pre-January 7, 2013 Retirees	3 percent, simple	3 percent, simple	3 percent, simple
Post-January 7, 2013 Retirees	see below	see below	see below
Investment Rate of Return	6.9 percent	7.2 percent	7.5 percent
Actuarial Cost Method	Individual Entry Age	Individual Entry Age	Individual Entry Age

Since 2020, the Combined Plan had the same change in COLA or Ad Hoc COLA for Post-January 2, 2013, retirees as the Traditional Plan.

Changes in Assumptions – OP&F Pension

Amounts reported beginning in 2018 incorporate changes in assumptions used by OP&F in calculating the total pension liability in the latest actuarial valuation. These new assumptions compared with those used in 2017 and prior are presented below:

City of Wellston, Ohio
Notes to the Required Supplementary Information
For the Year Ended December 31, 2025

	Beginning in 2018	2017 and Prior
Actuarial Cost Method	Entry Age Normal	Entry Age Normal
Investment Rate of Return	See Below	See Below
Projected Salary Increases	3.75 percent to 10.5 percent	4.25 percent to 11 percent
Payroll Growth	3.25 percent per annum, compounded annually, consisting of Inflation rate of 2.75 percent plus productivity increase rate of 0.5 percent	Inflation rate of 3.25 percent plus productivity increase rate of 0.5 percent
Cost of Living Adjustments	2.2 percent simple for increases based on the lesser of the increase in CPI and 3 percent	3.00 percent simple; 2.6 percent simple for increases based on the lesser of the increase in CPI and 3 percent

For 2017 and prior the investment rate of return was 8.25 percent. Beginning in 2018, the OP&F Board adopted a change in the investment rate of return, changing it from 8.25 percent for 2017 and prior to 8 percent. Beginning in 2022, the OP&F Board adopted a change in the investment rate of return, changing it from 8 percent for 2018 through 2021 to 7.5 percent for 2022 and forward.

Beginning in 2023, mortality for service retirees is based on the Pub-2010 Below-Median Safety Amount-Weighted Healthy Retiree mortality table with rates adjusted by 96.2 percent for males and 98.7 percent for females. All rates are projected using the MP-2021 Improvement Scale.

Beginning in 2023, mortality for disabled retirees is based on the Pub-2010 Safety Amount-Weighted Disabled Retiree mortality table with rates adjusted by 135 percent for males and 97.9 percent for females. All rates are projected using the MP-2021 Improvement Scale.

Beginning in 2023, mortality for contingent annuitants is based on the Pub- 2010 Below-Median Safety Amount-Weighted Contingent Annuitant Retiree mortality table with rates adjusted by 108.9 percent for males and 131 percent for females. All rates are projected using the MP-2021 Improvement Scale.

Beginning in 2023, mortality for active members is based on the Pub-2010 Below-Median Safety Amount-Weighted Employee mortality table. All rates are projected using the MP- 2021 Improvement Scale.

Prior to 2023, mortality for non-disabled participants is based on the RP-2014 Total Employee and Healthy Annuitant Mortality Tables rolled back to 2006, adjusted according to the rates in the following table, and projected with the Buck Modified 2016 Improvement Scale. Rates for surviving beneficiaries are adjusted by 120 percent.

Age	Police	Fire
67 or less	77 %	68 %
68-77	105	87
78 and up	115	120

Prior to 2023, mortality for disabled retirees is based on the RP-2014 Disabled Mortality Tables rolled back to 2006, adjusted according to the rates in the following table, and projected with the Buck Modified 2016 Improvement Scale.

Age	Police	Fire
59 or less	35 %	35 %
60-69	60	45
70-79	75	70
80 and up	100	90

2023	5.5 percent, initial 3.5 percent, ultimate in 2036
2022	5.5 percent, initial 3.5 percent, ultimate in 2034
2021	8.5 percent, initial 3.5 percent, ultimate in 2035
2020	10.5 percent, initial 3.5 percent, ultimate in 2030
2019	10.0 percent, initial 3.25 percent, ultimate in 2029
2018	7.5 percent, initial 3.25 percent, ultimate in 2028

City of Wellston, Ohio
Notes to the Required Supplementary Information
For the Year Ended December 31, 2025

Changes in Assumptions – OP&F OPEB

Blended Discount Rate:	
2025	4.69 percent
2024	4.07 percent
2023	4.27 percent
2022	2.84 percent
2021	2.96 percent
2020	3.56 percent
2019	4.66 percent
2018	3.24 percent

In 2022, the OP&F Board adopted a change in the investment rate of return, changing it from 8 percent for 2018 through 2021 to 7.5 percent.

Changes in Benefit Terms - OPERS

For 2025, the Combined Plan of OPERS was incorporated into the Traditional Plan of OPERS. Additionally, members with both Traditional Plan and Combined Plan service may choose to aggregate their service credit to fulfill unreduced retirement eligibility requirements. To aggregate service, members must have at least five years of contributing service in one of the two plans and the member must refund the contributions (and interest) left in the plan with the lesser service credit.

Changes in Benefit Terms – OPERS OPEB

Retirees receive a monthly subsidy into an HRA account equal to a dollar amount (base allowance) multiplied by the retirees' applicable allowance percentage. The Board of Trustees set the HRA base allowance on an annual basis. For purposes of GASB Statement Nos. 74 and 75 reporting, changes to the HRA base allowance (or assumed future HRA base allowances, as determined by the Board of Trustees with OPERS Staff assistance) are treated as benefit changes during the current period and recognized in the OPEB Expense.

On January 15, 2020, the Board approved several changes to the health care plan offered to Medicare and non-Medicare retirees in efforts to decrease costs and increase the solvency of the health care plan. These changes are effective January 1, 2022, and include changes to base allowances and eligibility for Medicare retirees, as well as replacing OPERS-sponsored medical plans for non-Medicare retirees with monthly allowances, similar to the program for Medicare retirees. These changes are reflected in 2021.

Changes in Benefit Terms – OP&F OPEB

For 2019, OP&F recognized a change in benefit terms. Under this new model, OP&F provides eligible retirees with a fixed stipend earmarked to pay for health care and Medicare Part B reimbursements. This new model replaced the self-insured health care plan used in prior years.
